

(5) A statement on the impact this waiver will have on other commercial passenger vessel operators. According to the applicant: "This vessel has been continuously involved in a bare-boat charter program since 1987. My request is to simply add captaining (and potentially additional crew) for up to 12 passengers, which should provide no adverse impact on boat chartering industry. Size of vessel dictates day trips and weekly charters which will not adversely affect commuter ferry or cruise ship industries."

(6) A statement on the impact this waiver will have on U.S. shipyards. According to the applicant: "This waiver should have no impact on US shipyards. Production on this vessel ceased in Taiwan an estimated ten years ago. The vessel will continue to be operated for charter in the same waters, with the addition of including the owner as a licensed captain."

Dated: December 19, 2001.
