BILLING CODE 4410-15-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-275 and 50-323]

Pacific Gas and Electric Company, Diablo Canyon Nuclear Power Plant, Unit Nos. 1 and 2; Notice of Consideration of Approval of Transfer of Facility Operating Licenses and Conforming Amendments and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating Licenses Nos. DPR-80 and DPR-82, for the Diablo Canyon Nuclear Power Plant, Unit Nos. 1 and 2 (Diablo Canyon) currently held by Pacific Gas and Electric Company (PG&E), as owner and licensed operator of Diablo Canyon. The Commission is also considering amending the licenses for administrative purposes to reflect the proposed transfer, and amending the antitrust conditions in licenses as discussed below.

According to an application for approval filed by PG&E, the transfer of the licenses would be to a new generating company named Electric Generation LLC (Gen), which would operate the facility, and to a new wholly-owned subsidiary of Gen named Diablo Canyon LLC (Nuclear), which would hold title to Diablo Canyon and lease it to Gen. PG&E is requesting approval of these transfers in connection with a comprehensive Plan of Reorganization (Plan) for PG&E filed under Chapter 11 of the United States Bankruptcy Code.

No physical changes to Diablo Canyon or operational changes are being proposed in the application.

The proposed conforming administrative amendments generally would replace references to PG&E in the licenses with references to Gen and Nuclear, as appropriate, to reflect the proposed transfer. With specific regard to the antitrust conditions in the licenses, the application proposes changes such that Gen will be inserted in the conditions and thus become
