

**Conclusion**

After review of the application and investigative finding, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the applicant is denied.

**Echo Bay Minerals Co., Battle Mountain, NV; Notice of Revised Determination on Reopening**

On December 14, 2001, the Department on its own motion reopened the Department's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to the workers of the subject firm.

The initial investigation resulted in a negative determination issued on December 5, 2001, based on the finding that imports of gold dore did not contribute importantly to worker separations at the subject plant. The denial notice was published in the **Federal Register** on December 26, 2001 (66 FR 66428).

The company supplied additional information to help clarify the products produced at the subject site. The company provided data showing that the dominant product produced at the subject site was silver. The silver production accounted for over half of the subject plant's revenues during the relevant period.

An examination of aggregate U.S. imports of silver revealed that silver imports increased significantly during the relevant period. The U.S. import to U.S. shipment ratio for silver was greater than 100 percent during the relevant period.

The workers at Echo Bay Minerals Co., Battle Mountain, Nevada were under an existing trade adjustment assistance certification (TA-W-36,557) through August 5, 2001.

**Conclusion**

After careful review of the additional facts obtained on reconsideration, I

conclude that increased imports of articles like or directly competitive with those produced at Echo Bay Minerals Co., Battle Mountain, Nevada, contributed importantly to the declines in sales or production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Echo Bay Minerals Co., Battle Mountain, Nevada who became totally or partially separated from employment on or after August 6, 2001, through two years from the date of this certification, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974.

Signed in Washington, DC, this 14th day of January 2002.

**Hampton Industries Kinston, NC and New York, NY; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Notice of Certification Regarding Eligibility to Apply for Worker Adjustment Assistance on October 11, 2000, applicable to workers of Hampton Industries, Kinston, North Carolina. The notice was published in the **Federal Register** on November 1, 2000 (65 FR 65330).

At the request of the petitioners, the Department reviewed the certification for workers of the subject firm. The company reports that worker separations occurred at the New York, New York location of the subject firm. The New York, New York location provided administrative services supporting the production of men's and boy's woven and knit shirts at the Kinston, North Carolina facility of the subject firm.

Based on these findings, the Department is amending the certification to include workers of Hampton Industries, New York, New York.

The intent of the Department's certification is to include all workers of Hampton Industries who were adversely

affected by increased imports of men's and boy's woven and knit shirts.

The amended notice applicable to TA-W-37,964 is hereby issued as follows:

All workers of Hampton Industries, Kinston, North Carolina (TA-W-37,964) and Hampton Industries, New York, New York (TA-W-37,964B) who became totally or partially separated from employment on or after July 20, 1999, through October 11, 2002, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.
