(d) * * *

(1) For purposes of seeking competitive bids for telecommunications services, Internet access and internal connections, schools and libraries eligible for support under this subpart may form consortia with other customers. When ordering telecommunications and other supported services under this subpart, the consortium may even seek to negotiate for pre-discount prices below tariffed interstate rates on behalf of members that are eligible schools or libraries, health care providers eligible under subpart G, or public sector (governmental) entities, including, but not limited to, state colleges and state universities, state educational broadcasters, counties and municipalities. However, eligible schools and libraries may only receive support for their share of services as part of a consortium that includes ineligible private sector entities if the pre-discount prices of any interstate tariffed services that such ineligible private sector members of the consortium receive are at the tariffed rates.
