Federal Energy Regulatory Commission

[Docket No. RM98-1-000]

Regulations Governing Off-the-Record Communications; Public Notice

April 19, 2002.

This constitutes notice, in accordance with 18 CFR 385.2201(h), of the receipt of exempt and prohibited off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive an exempt or a prohibited off-the-record communication relevant to the merits of a contested on-the-record proceeding, to deliver a copy of the communication, if written, or a summary of the substance of any oral communication, to the Secretary.

Prohibited communications will be included in a public, non-decisional file associated with, but not part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such requests only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication should serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications will be included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of exempt and prohibited off-the-record communications received in the Office of the Secretary within the preceding 14 days. Copies of this filing are on file with the Commission and are available for public inspection. The documents may be viewed on the web at <http://www.ferc.gov> using the "RIMS" link, select "Docket#" and follow the instructions (call 202-208-2222 for assistance).

II. Availability of FY 2002 Funds

With this publication, EPA Region III is announcing the availability of approximately \$150,000 in grant/cooperative agreement funds for FY 2002. Region III is seeking to fund three grants. The Agency has delegated grant making authority to the EPA Regional Offices. EPA Region III is responsible for the solicitation of interest, the screening of proposals, and the selection of projects. Grant guidance will be provided to all applicants along with any supplementary information Region III may wish to provide. All applicants must address the criteria listed under Unit IV.B. of this document. Interested applicants should contact the Regional Strategic Agriculture Initiative Coordinator listed under Unit V. for more information.

III. Eligible Applicants

In accordance with the Act ". . . Federal agencies, universities, or others

as may be necessary to carry out the purposes of the act, . . ." are eligible to receive a grant. Eligible applicants for purposes of funding under this grant program include those operating within the six EPA Region III States (Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia), and any agency or instrumentality of a Region III State including State universities and non-profit organizations operating within a Region III State. For convenience, the term "State" in this notice refers to all eligible applicants.

IV. Activities and Criteria

A. General

The goal of the Strategic Agriculture Initiative Grant Program is to reduce the risks and use of pesticides in agricultural settings. Another goal is to rapidly spread available technology and information about ways to reduce dependence on the more highly toxic pesticides.

B. Criteria

Proposals will be evaluated based on the following criteria:

1. Qualifications and experience of the applicant relative to the proposed project.

- Does the applicant demonstrate experience in the field of the proposed activity?
- Does the applicant have the properly trained staff, facilities, or infrastructure in place to conduct the project?

2. Consistency of applicant's proposed project with the risk reduction goal of the Strategic Agriculture Initiative.

3. Provision for a quantitative or qualitative evaluation of the project's success at achieving the stated goals.

- Is the project designed in such a way that it is possible to measure and document the results quantitatively and qualitatively?
- Does the applicant identify the method that will be used to measure and document the project's results quantitatively and qualitatively?
- Will the project assess or suggest a means for measuring progress in reducing risk associated with the use of pesticides?

4. Likelihood the project can be replicated to benefit other communities or the product may have broad utility to a widespread audience. Can this project, taking into account typical staff and financial restraints, be replicated by similar organizations in different locations to address the same or similar problem?

C. Program Management

Awards of FY 2002 funds will be managed through EPA Region III. Quality Management Plans and Quality Assurance Project Plans may be required, depending on the nature of the project and the data collected. Contact your Regional Strategic Agriculture Initiative Coordinator for more information about this requirement.

D. Contacts

Interested applicants must contact the appropriate EPA Regional Strategic Agriculture Initiative Coordinator listed under Unit V. to obtain specific instructions, regional criteria, and guidance for submitting proposals.

V. Region III Strategic Agriculture Initiative Program Contact

VI. Submission to Congress and the Comptroller General

Under the Agency's current interpretation of the definition of a "rule," grant solicitations such as this which are competitively awarded on the basis of selection criteria, are considered rules for the purpose of the Congressional Review Act (CRA). The CRA, 5 U.S.C. 801*et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), generally provides that before a rule may take effect, the agency promulgating the rules must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).
