

Also on April 24, 2002, the Department sent a no-shipment inquiry concerning Rhodia to the U.S. Customs Service (Customs). The purpose of this inquiry was to determine whether Customs suspended liquidation of entry summaries of ASM during the POR. The Customs Service did not identify any suspended entry summaries of ASM manufactured and/or exported by Rhodia during the POR. Therefore, we have determined that there were no entries of subject merchandise produced or exported by Rhodia into the customs territory of the United States during the POR.

Rescission of Review

Pursuant to 19 CFR 351.213(d)(3), the Department may rescind an administrative review, in whole, or only with respect to a particular exporter or producer, if the Department concludes that, during the period covered by the review, there were no entries, exports, or sales of the subject merchandise. In light of the fact that we have determined that the only company covered by the review did not have entries for consumption into the territory of the United States during the POR in question, we find that rescinding this review is appropriate. On May 1, 2002, we sent a letter to the petitioner to notify it of our findings and invited it to comment on our intent to rescind the review. The petitioner responded on May 16, 2002, stating that it does not object. Therefore, we are rescinding this administrative review. The cash-deposit rate for Rhodia will remain at 60 percent, the rate established in the most recently completed segment of this proceeding (66 FR 57934, November 19, 2001).

This notice is in accordance with section 777(i) of the Act and 19 CFR 351.213(d)(4).

Dated: May 24, 2002

Susan Kuhbach,

Acting Deputy Assistant Secretary Import Administration.

Brake Rotors from the People's Republic of China: Initiation of New Shipper Antidumping Duty Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce has received requests to conduct new shipper reviews of the antidumping duty order on brake rotors from the People's Republic of China. In accordance with section 751(a)(2)(B) of the Tariff Act of 1930, as amended, and 19 CFR 351.214(d), we are initiating reviews for Zibo Golden Harvest Machinery Limited Company and Shanxi Fengkun Metallurgical Limited Company.

EFFECTIVE DATE: June 5, 2002.

FOR FURTHER INFORMATION CONTACT:

Terre Keaton or Davina Hashmi, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 482-1280 or 482-0984, respectively.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce ("the Department") regulations are to 19 CFR part 351 (April 2001).

SUPPLEMENTARY INFORMATION:

Background

The Department has received timely requests from Zibo Golden Harvest Machinery Limited Company ("Zibo Golden Harvest") and Shanxi Fengkun Metallurgical Limited Company ("Fengkun"), in accordance with 19 CFR 351.214(c), for new shipper reviews of the antidumping duty order on brake rotors from the People's Republic of China ("PRC"), which has an April anniversary date.

As required by 19 CFR 351.214(b)(2)(i) and (iii)(A), each of the companies identified above, which are also producers, has certified that it did not export brake rotors to the United States during the period of investigation ("POI"), and that it has never been affiliated with any exporter or producer which did export brake rotors during the POI. Each company has further certified that its export activities are not controlled by the central government of the PRC, satisfying the requirements of 19 CFR 351.214(b)(2)(iii)(B). Pursuant to the Department's regulations at 19 CFR 351.214(b)(2)(iv)(A), Zibo Golden Harvest and Fengkun each submitted documentation establishing the date on which it first shipped the subject

merchandise to the United States, the volume of that first shipment, and the date of the first sale to an unaffiliated customer in the United States.

In accordance with section 751(a)(2)(B) of the Act, as amended, and 19 CFR 351.214(b), and based on information on the record, we are initiating new shipper reviews for Zibo Golden Harvest and Fengkun.

It is the Department's usual practice in cases involving non-market economies to require that a company seeking to establish eligibility for an antidumping duty rate separate from the country-wide rate provide de jure and de facto evidence of an absence of government control over the company's export activities. Accordingly we will issue a questionnaire to Zibo Golden Harvest and Fengkun (including a complete separate rates section), allowing approximately 37 days for response. If the response from each respondent provides sufficient indication that it is not subject to either de jure or de facto government control with respect to its exports of brake rotors, each review will proceed. If, on the other hand, a respondent does not demonstrate its eligibility for a separate rate, then it will be deemed to be affiliated with other companies that exported during the POI and that it did not establish entitlement to a separate rate, and the review of that respondent will be rescinded.

Initiation of Review

In accordance with section 751(a)(2)(B)(ii) of the Act and 19 CFR 351.214(d)(1), we are initiating new shipper reviews of the antidumping duty order on brake rotors from the PRC. Therefore, we intend to issue the preliminary results of these reviews not later than 180 days after the date on which the reviews are initiated. On May 7, 2002, Zibo Golden Harvest and Fengkun agreed to waive the time limits in order that the Department, pursuant to 19 CFR 351.214(j)(3), may conduct this review concurrent with the fifth annual administrative review of this order for the period April 1, 2001-March 31, 2002, which is being conducted pursuant to section 751(a)(1) of the Act. Therefore, we intend to issue the final results of this review not later than 245 days after the last day of the anniversary month.

Antidumping Duty Proceeding	Period to be Reviewed
PRC: Brake Rotors, A-570-846: Zibo Golden Harvest Machinery Limited Company Shanxi Fengkun Metallurgical Limited Company.	04/01/01 - 03/31/02

We will instruct the Customs Service to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the merchandise exported by the above-listed companies. This action is in accordance with 19 CFR 351.214(e).

Interested parties that need access to proprietary information in these new shipper reviews should submit applications for disclosure under administrative protective orders in accordance with 19 CFR 351.305 and 351.306.

This initiation and notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.214(d).

Dated: May 24, 2002

Susan Kuhbach,

Acting Deputy Assistant Secretary Import Administration.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, DC.

Docket Number: 02-018. *Applicant:* Thomas Jefferson University, 1020 Walnut Street, Philadelphia, PA 19107-5587. *Instrument:* Electron Microscope, Model Tecnai 12 TWIN. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is

intended to be used for the following research purposes:

1. Collagen Fibrillogenesis and Corneal Development.
 2. Regulated Assembly of the Tendon Extracellular Matrix.
 3. Cellular Pathology of Cutaneous Graft-vs-Host Disease.
 4. Biological and Clinical Properties of CD4 Structural Analogs.
 5. Altered Proteoglycan Gene Expression and Cancer.
 6. Biology of Perlecan in Cancer and Development.
 7. Structure of Type VI Collagen and its Role in Disease.
 8. Function of Fibulins.
 9. Consequences of the Mutations at the Protein Structure/Function Level.
 10. Mouse Models of Epidermolysis Bullosa.
 11. Molecular Genetics of Epidermolysis Bullosa and Other Heritable Disorders of the Cutaneous Basement Membrane Zone and Epidermis.
 12. Biochemistry and Morphology of Connective Tissue.
 13. RNA-DNA Oligonucleotide: Novel Skin Therapeutics.
 14. Non-viral Therapy for Cutaneous Diseases.
 15. Mechanisms of Proteoglycan-collagen Interactions. *Application accepted by Commissioner of Customs:* May 23, 2002.
- Docket Number:* 02-019. *Applicant:* Vanderbilt University, 1161 21st Avenue South, Nashville, TN 37232. *Instrument:* Electron Microscope, Model Tecnai 12 TWIN. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used to study the three-dimensional structures of biological macromolecules and assemblies, such as viruses and protein complexes. The materials to be studied include adenovirus, a common human respiratory virus; the ribonucleoprotein vault, a cytoplasmic particle implicated in multi-drug resistance in certain cancer cell lines; the DNA-PK protein/DNA complex, which is involved in repair of DNA double-stranded breaks after exposure to ionizing radiation; the family of small heat-shock proteins, which help the cell to resist heat-induced protein aggregation; CAM kinase complexes, which are involved in regulation of synaptic function in the brain; monoamine transporters (serotonin,

norepinephrine, and dopamine), which are targets for antidepressants and psychostimulants; transcription complexes isolated from yeast; and other macromolecular protein assemblies involved in DNA transactions. *Application accepted by Commissioner of Customs:* May 23, 2002.

National Institute of Standards and Technology

Public Meeting To Gather Comments and Suggestions Related to the Scope of the Pending NIST Building and Fire Safety Investigation of the World Trade Center Disaster

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of public meeting.

SUMMARY: The National Institute of Standards and Technology (NIST) of the United States Department of Commerce has scheduled a public meeting to be held on June 24, 2002, to gather comments and suggestions related to the scope of its pending building and fire safety investigation of the World Trade Center disaster. A draft of the proposed NIST investigation plan with details on its scope will be made available June 10, 2002 on the Web site <http://wtc.nist.gov>. A review of the recently completed report "World Trade Center Building Performance Study: Data Collection, Preliminary Observations, and Recommendations" sponsored by the Federal Emergency Management Agency (FEMA) and led by the American Society of Civil Engineers may be useful in formulating comments and suggestions. This report (*FEMA 403, May 2002*) may be found at <http://www.fema.gov/library/wtcstudy.htm>. Individuals and representatives of organizations who would like to offer comments and suggestions related to the scope of the pending NIST investigation are invited to request a place on the agenda. The total number of speakers and organizations, and the time
