Revisions to the California State Implementation Plan, Great Basin Unified Air Pollution Control District and South Coast Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Great Basin Unified Air Pollution Control District (GBUAPCD) portion and the South Coast Air Quality Management District (SCAQMD) portion of the California State Implementation Plan (SIP). These revisions concern the emission of particulate matter (PM-10) from GBAPCD open burning/open detonation (OB/OD) of propellants, explosives, and pyrotechnics (PEP); from SCAQMD storage, handling, and transport of coke, coal, and sulfur; and from SCAQMD paved and unpaved roads and livestock operations. We are proposing to approve local rules that regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. Approval of an Air Quality Implementation Plan Revision; South Dakota; Rapid City Street Sanding Regulations To Protect the National Ambient Air Quality Standards for PM-10

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is taking direct final action to approve a State Implementation Plan (SIP) revision submitted by the State of South Dakota for the purpose of establishing street sanding, deicing and maintenance rules for Rapid City, South Dakota. In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any
