Williams Gas Pipelines Central, Inc.; Notice of Motion to Make Tariff Sheets Effective

August 23, 2002.

Take notice that on August 16, 2002, Williams Gas Pipelines Central, Inc. (Williams) tendered for filing as part of its FERC Gas Tariff, Original Volume No. 1, the tariff sheets listed on Appendix A to the filing, to become effective September 1, 2002.

Williams states that the tariff sheets are identical to the tariff sheets filed initially on March 1, 2002 to transition Williams from a monthly allocation pipeline to a daily allocation pipeline. As Williams reserved its right to move the suspended sheets into effect through its March 1, 2002 filing, Williams hereby exercises its reserved rights and with the instant filing, moves the suspended tariff sheets into effect on September 1, 2002, consistent with the Suspension Order.

Williams states that copies of the revised tariff sheets are being mailed to Williams' jurisdictional customers and interested state commissions, as well as those appearing on the official service list for this docket.

2. Neptune Regional Transmission System, LLC

[Docket No. ER01-2099-002]

Take notice that on August 13, 2002, Neptune Regional Transmission System, LLC (Neptune), filed with the Federal **Energy Regulatory Commission** (Commission), a motion to modify certain provisions of the Commission's orders in the proceeding in Docket No. ER01-2099-000: Neptune Regional Transmission System, LLC, 96 FERC ¶ 61,147 (2001), order on reh'g, 96 FERC ¶ 61,326 (2001), order on clarification, 98 FERC ¶ 61,140 (2002).

Neptune requests that the Commission amend its prior orders to permit Neptune to negotiate to sell longterm Transmission Scheduling Rights (TSRs) outside of an open season process, that the Commission permit affiliate participation in the initial allocation or sale of TSRs as well as in the secondary market for TSRs, and that the Commission clarify that the deadline for recalling TSRs lost in the "use it or lose it" process can be identical to the deadline under the Standard Market Design tariff for changing transmission schedules.

Neptune claims that the open season process is impractical and unnecessary to achieving Commission goals, that there are no market power concerns present with respect to allowing affiliate participation in the initial allocation or sale of TSRs, that the open season requirement and affiliate restrictions are inconsistent with the Commission's Standard Market Design, and that TSR holders should be allowed to exercise their recall rights within the same timeframes as a market participant would be
