

NASD has also proposed to change the Rule to provide that exemptions will only be granted in "exceptional circumstances." This change, coupled with those described above, should help to reduce the number of requests that might otherwise consume time and resources on the part of both NASD and firms subject to the Rule. Furthermore, NASD's proposal to extend the duration of the taping requirement from two years to three years from the date taping begins is proper. Although one commenter noted that this constitutes a higher compliance burden, it should reduce any confusion that might be caused by the difference between the Rule's current two-year taping requirement and the Rule's requirement that member firms must review the last three years of their employees' work history to determine whether they had worked at disciplined firms. The Commission also believes that the proposal to allow 60 days, instead of 30, for the installation of taping systems is appropriate. One commenter noted that it could take 60 days to implement a taping system.

The proposed clarifying changes to the Rule are also consistent with the Act. The substitution of "associated with one or more Disciplined Firms in a registered capacity" for "employed by one or more Disciplined Firms" in subparagraph (b)(2)(viii) of the Rule should eliminate any misconception that representatives that were independent contractors<sup>13</sup> of disciplined firms do not count toward the threshold levels. Likewise, adding language to clarify that firms that become subject to the Rule must "implement" the required procedures within the allotted time period should make clear that the taping and supervisory procedures must be put into use within the prescribed time period. Finally, NASD's proposal to clarify that the taping compliance period begins on the date that the member implements its taping system should help to ensure that the Rule's requirements are easily understood.

As noted above, NASD has also proposed to permit, upon request, public disclosure of whether a particular firm is subject to the Taping Rule. This disclosure would be made available through the toll-free telephone listing of NASD's Public Disclosure Program. Although one of the commenters asserted that the public

might interpret the Rule's application as a disciplinary sanction, rather than a remedial measure, this does not mean that the disclosure should not be permitted. Rather, the Commission believes that this disclosure will benefit investors and the general public by providing information that will permit them to consider the level of experience and training of a firm's representatives. Therefore, this should allow investors a better opportunity to evaluate their choices in selecting a broker/dealer.

Finally, the Commission believes that NASD's proposal to apply the changes prospectively is appropriate. Retroactive application would allow firms currently subject to the Rule to evade the requirements entirely, and thereby inappropriately restrict NASD's oversight of such firms' sales training and practices.

#### V. Conclusion

For the foregoing reasons, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,<sup>14</sup> that the proposed rule change (SR-NASD-2002-04) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>15</sup>
