

elements in the proportions shown: (1) 0.78 percent or more of carbon, (2) less than 0.01 percent of soluble aluminum, (3) 0.040 percent or less, in the aggregate, of phosphorus and sulfur, (4) 0.008 percent or less of nitrogen, and (5) either not more than 0.15 percent, in the aggregate, of copper, nickel and chromium (if chromium is not specified), or not more than 0.10 percent in the aggregate of copper and nickel and a chromium content of 0.24 to 0.30 percent (if chromium is specified).

The designation of the products as "tire cord quality" or "tire bead quality" indicates the acceptability of the product for use in the production of tire cord, tire bead, or wire for use in other rubber reinforcement applications such as hose wire. These quality designations are presumed to indicate that these products are being used in tire cord, tire bead, and other rubber reinforcement applications, and such merchandise intended for the tire cord, tire bead, or other rubber reinforcement applications is not included in the scope. However, should petitioners or other interested parties provide a reasonable basis to believe or suspect that there exists a pattern of importation of such products for other than those applications, end-use certification for the importation of such products may be required. Under such circumstances, only the importers of record would normally be required to certify the end use of the imported merchandise.

All products meeting the physical description of subject merchandise that are not specifically excluded are included in this scope.

The products under investigation are currently classifiable under subheadings 7213.91.3010, 7213.91.3090, 7213.91.4510, 7213.91.4590, 7213.91.6010, 7213.91.6090, 7213.99.0031, 7213.99.0038, 7213.99.0090, 7227.20.0010, 7227.20.0020, 7227.20.0090, 7227.20.0095, 7227.90.6051, 7227.90.6053, 7227.90.6058, and 7227.90.6059 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this proceeding is dispositive.

**Period of Investigation**

The period for which we are measuring subsidies, or period of investigation, is calendar year 2000.

**Amended Final Determination**

In accordance with section 705(d) of the Act, on August 30, 2002, the Department published in the **Federal Register** the *Final Affirmative Countervailing Duty Determination and*

*Final Negative Critical Circumstances Determination: Carbon and Certain Alloy Steel Wire Rod from Germany*, 67 FR 55808. On September 4, 2002, we received a ministerial error allegation, timely filed pursuant to 19 CFR 351.224(c)(2), from Saarstahl AG, ("Saarstahl"). Saarstahl alleged that the Department made a ministerial error in the final determination in failing to use an 11-year average useful life ("AUL") in Saarstahl's calculations. On September 9, 2002, the petitioners (Co-Steel Raritan, Inc., GS Industries, Keystone Consolidated Industries, Inc., and North Star Steel Texas, Inc.) submitted a rebuttal to Saarstahl's allegation. The petitioners argued that Saarstahl's allegation does not constitute a ministerial error as defined by the Department's regulations and should be rejected by the Department.

After analyzing the submissions, we have determined that Saarstahl's allegation does not constitute a ministerial error as defined by section 351.224(f) of the Department's regulations. For a detailed discussion of the ministerial error allegation and the Department's analysis, see September 30, 2002, "Ministerial Errors" memorandum from the Team to Richard W. Moreland, Deputy Assistant Secretary ("*Ministerial Errors Memo*"), which is on file in the Department's Central Records Unit in Room B-099 of the main Department building.

After releasing the final determination, the Department found an error in the calculation of the "all others" rate. The error resulted from the use of the originally reported sales values for Ispat Walzdraht Hochfeld GmbH ("IWHG") and Ispat Hamburger Stahlwerke GmbH ("IHSW") in the calculation, rather than the revised sales values obtained at verification. Using the correct U.S. sales values for IHSW and IWHG, the revised "all others" rate is 10.97 percent *ad valorem*. For a discussion of this issue and the revised "all others" margin calculation, see *Ministerial Errors Memo*.

Accordingly, we are amending the final determination for the countervailing duty investigation of carbon and certain alloy steel wire rod from Germany to correct the "all others" rate. The estimated net subsidy rates are as follows:

Producer/Exporter	Net Subsidy Rate
Saarstahl, A.G. ....	18.46
Ispat (IHSW, IWHG, ISRG) .....	1.12
All Others .....	10.97

**Suspension of Liquidation**

In accordance with section 705(c)(1)(B)(ii) of the Act, we are directing the Customs Service ("Customs") to continue suspending liquidation on all imports of subject merchandise from Germany that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. Customs shall require a cash deposit or the posting of a bond equal to the margin/subsidy rates indicated in the chart above. These suspension of liquidation instructions will remain in effect until further notice.

We will issue a countervailing duty order if the International Trade Commission ("ITC") issues a final affirmative injury determination. If the ITC determines that material injury, or threat of material injury, does not exist, this proceeding will be terminated and all estimated duties deposited or securities posted as a result of the suspension of liquidation will be refunded or canceled.

**ITC Notification**

In accordance with section 705(d) of the Act, we will notify the ITC of our amended final determination.

**Return or Destruction of Proprietary Information**

In the event that the ITC issues a final negative injury determination, this notice will serve as the final reminder to parties subject to an Administrative Protective Order ("APO") of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply is a violation of the APO.

This determination is published pursuant to sections 705(d), 705(e) and 777(i) of the Act.

Dated: October 1, 2002.

[I.D. 100102A]

**Submission for OMB Review; Comment Request**

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).  
 Title: Documentation of Fish Harvest.  
 Form Number(s): None.  
 OMB Approval Number: 0648-0365.  
 Type of Request: Regular submission.  
 Burden Hours: 50.  
 Number of Respondents: 25.  
 Average Hours Per Response: 30 minutes.

**Needs and Uses:** Seafood dealers who possess red porgy, gag, black grouper, or greater amberjack during seasonal fishery closures must maintain documentation that such fish were harvested from areas other than the South Atlantic. Documentation includes information on the vessel that harvested the fish and on where and when the fish were offloaded. The information is required for the enforcement of fishery regulations.

**Affected Public:** Business or other for-profit organizations, individuals or households.

**Frequency:** Recordkeeping.  
**Respondent's Obligation:** Mandatory.  
**OMB Desk Officer:** David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482-3129, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Dated: September 26, 2002.
