

particular issue (e.g., the listing of the spotted owl as an endangered species), it is less likely that there will be a significant contribution from release.

(4) Would disclosure be primarily in your commercial interest?

(i) Do you have a commercial interest that would be furthered by disclosure? A commercial interest is a commercial, trade, or profit interest as these terms are commonly understood. Your status as "profitmaking" or "non-profitmaking" is not the deciding factor. Not only profitmaking entities, but other organizations or individuals may have a commercial interest to be served by disclosure, depending on the circumstances involved.

(ii) If you do have a commercial interest that would be furthered by disclosure, would disclosure be primarily in that interest? Would the public interest in disclosure be greater than any commercial interest you or your organization may have in the documents? If so, how would it be greater?

(iii) Your identity, vocation, and the circumstances surrounding your request are all factors to be considered in determining whether disclosure would be primarily in your commercial interest. For example:

(A) If you are a representative of a news media organization seeking information as part of the news gathering process, we will presume that the public interest outweighs your commercial interest.

(B) If you represent a business/corporation/association or you are an attorney representing such an organization, we will presume that your commercial interest outweighs the public interest unless you demonstrate otherwise.

(C) If the bureau cannot make a determination based on the information you have provided, it may ask you for additional justification regarding your request.

#### Appendix E to Part 2—FOIA Exemptions

Under the FOIA (5 U.S.C. 552(b)), there are *nine exemptions* which may be used to protect information from disclosure. The Department has paraphrased the exemptions, below, for your information. The paraphrases are not intended to be interpretations of the exemptions.

(1) National security information concerning national defense or foreign policy, provided that such information has been properly classified, in accordance with an Executive Order;

(2) Information related solely to the internal personnel rules and practices of an agency;

(3) Information specifically exempted from disclosure by statute (other than the Privacy Act or the Trade Secrets Act), provided that such statute:

(A) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue; or

(B) Establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(4) Trade secrets and commercial or financial information which is obtained from a person and is privileged or confidential;

(5) Inter-agency or intra-agency memorandums or letters, which would not be

available by law to a party other than an agency in litigation with the agency;

(6) Personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Records or information compiled for law enforcement purposes, the release of which:

(A) Could reasonably be expected to interfere with enforcement proceedings;

(B) Would deprive a person of a right to a fair trial or an impartial adjudication;

(C) Could reasonably be expected to constitute an unwarranted invasion of personal privacy;

(D) Could reasonably be expected to disclose the identity of a confidential source;

(E) Would disclose techniques, procedures, or guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law; or

(F) Could reasonably be expected to endanger the life or physical safety of any individual.

(8) Information contained in or related to examination, operating, or condition reports, prepared by, or on behalf of, or for the use of an agency responsible for regulating or supervising financial institutions; and

(9) Geological and geophysical information and data, including maps, concerning wells.

(2) *Category B—Information.* Category B information must not be withheld from the public; it will be made available by means of and at the time of open filing or publication by USGS.

(3) *Category C—Information.* To the extent Category C information is proprietary, such information must not be made available to the public until after the areas to which the information pertains have been leased by the Department.

(4) *Category D—Information.* To the extent Category D information is proprietary, the Department will withhold the information from the public for the length of time the department or agency providing the information agreed to when it obtained the information.

(5) *Category E—Information.* Category E information must not be made public until the lands to which the information pertains have been leased, or until the Secretary has determined that its release prior to the issuance of a lease is in the public interest.
