Office of the Secretary

Privacy Act of 1974; Revision of System of Records

AGENCY: Office of the Secretary, USDA.

ACTION: Notice of revision of Privacy Act system of records.

SUMMARY: Notice is hereby given that the United States Department of Agriculture (USDA) proposes to amend the Privacy Act system of records FCIC-2, entitled Compliance Review Cases. The system of records is maintained by the Federal Crop Insurance Corporation (FCIC), a wholly-owned Government Corporation administered by the Risk Management Agency (RMA), an agency of USDA. The compliance review cases system of records is being revised to reflect changes in the administration and management of the Federal crop insurance program.

DATES: This notice will be effective without further notice on December 12, 2002 unless modified by a subsequent notice to incorporate comments received from the public. Although the Privacy Act requires only that the portion of the system which describes the "routine uses" of the system be published for comment, USDA invites comment on all portions of this notice. Comments must be received by the

contact person listed below on or before December 12, 2002.

FOR FURTHER INFORMATION CONTACT:

Deputy Administrator for Compliance, Risk Management Agency, Federal Crop Insurance Corporation, 1400 Independence Avenue, SW., Stop 0806, Washington, DC 20250-0806, telephone number (202) 720-0642.

These revisions are being made to reflect changes in the crop insurance program and RMA operations and organization. The major revisions to this system of records are the result of mandates included in the Agricultural Risk Protection Act of 2000. These include, establishment of a Farm Service Agency monitoring program, and utilization of the information technologies known as data mining and data warehousing and other available information technologies. The "categories of records in the system" is revised to include the results of the research and analyses that may be conducted on the data by RMA or its contractors. The "routine uses of records" are revised to: Update routine use number (1) to include agencies that regulate; add routine use number (5) to permit research and analysis on data for the purposes of detecting fraud, waste, or abuse; add routine use number (6) permitting investigations and referrals to determine whether information has been correctly reported and compliance with program requirements; and, add routine use number (7) to allow records to be used as necessary to administer, analyze, and evaluate the Federal crop insurance program.

In conformance with 5 U.S.C. 552a(r), as implemented by OMB Circular A-130 the Department of Agriculture sent a report reflecting these proposed changes to the Chairman, Committee on Governmental Affairs, United States Senate; the Chairman, Committee on Government Reform, United States House of Representatives; and the Administrator, Office of Information and Regulatory Affairs, Office of

Data research and analyses records may be indexed and retrieved by State and County, individual or entity name, tax identification number (including social security number), or contract number.

SAFEGUARDS:

Records are accessible only to authorized personnel and are

maintained in offices that are locked during non-duty hours. The computer database is controlled by password protection and the computer network is protected by means of a firewall. File folders are stored in locked file cabinets.

RETENTION AND DISPOSAL:

Record retention and disposal are handled in accordance with instructions outlined in the Farm and Foreign Agricultural Service Handbook, "Records Management, 2-AS (Revision 10), Amendment 1."

SYSTEM MANAGER/S/ AND ADDRESS:

Deputy Administrator for Compliance, Risk Management Agency, Federal Crop Insurance Corporation, 1400 Independence Avenue, SW. Stop 0806, Washington, DC 20250-0806, telephone number (202) 720-0642.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Pursuant to the provisions of 5 U.S.C. 552a(k)(2), material in this system of records is exempt from the requirements of 5 U.S.C. 552(a)(c)(3), (d), (e)(1), (e)(4)(G), (H) and (I), and (f) because it contains investigatory material compiled for law enforcement purposes. See 7 CFR 1.123.

5 U.S.C. 552a(c)(3) requires that an accounting of disclosures be made available to an individual. This would impair compliance reviews by alerting the subject of the review to the existence of those compliance reviews. The release of information from these files could result in the destruction or alteration of documentary evidence necessary to prosecution, improper influence or witnesses and other activities which could impede or compromise the review.

5 U.S.C. 552a(d) requires that an individual is given access to and the right to amend files pertaining to him or her. Such individual access to these files could hamper reviews in progress by alerting subjects involved in compliance reviews that their actions are under scrutiny, and allow them time to take measures to prevent detection of any illegal activities or escape prosecution. Release of these records also would disclose investigatory techniques and review procedures employed by the RMA Office of Risk Compliance, Federal Crop Insurance Corporation and other agencies, which may impair law enforcement activities.

5 U.S.C. 552a(e)(1) permits the maintenance of only such information as is relevant and necessary to accomplish a purpose of the Agency required by statute or Executive Order. Exemption from this provision is required because determination of

relevance and necessity can be made only after information is evaluated. Evaluation at the time of collection is too time consuming for the effective conduct of a compliance review. Further, the determination of relevance or necessity of specific information at the early stages of the compliance review is not possible.

5 U.S.C. 552a(e)(4)(G), (H) and (f) provide for notification and access procedures. If these requirements were followed it would necessarily alert subjects of the compliance review to the existence of the review and could impair the outcome of the review. Similarly, access to the records could interfere with compliance review and ultimate law enforcement proceedings; disclose confidential informants and information; constitute an unwarranted invasion of personal privacy of others; and reveal confidential investigative techniques and procedures.

5 U.S.C. 552a(e)(4)(I) requires that categories of records in each system be published. Application of this provision could disclose investigative techniques and procedures employed by compliance reviewers, which may impair law enforcement activities.
