

9. Export and Import of Specified Equipment and Non-Nuclear Material

Article 2.a(ix) of the model Additional Protocol requires information on the export and import of certain nuclear-related equipment and non-nuclear material listed in Annex II to the model Additional Protocol and listed below (items a-m). These items are subject to export license by the NRC and the Department expects the collection of this information will be the responsibility of the NRC. The Department is not aware of any current regulatory authority for collecting information on imports of such equipment and non-nuclear material. There will be no routine reporting requirements for import data since the submission of import data is upon specific request by the IAEA. The equipment and non-nuclear material subject to Article 2.a(ix) are described in Annex II to the U.S.-IAEA Additional Protocol and include:

(a) Reactors and equipment including complete nuclear reactors, and specially designed reactor pressure vessels, reactor fuel charging and discharging machines, reactor control rods, reactor pressure tubes, zirconium tubes, primary coolant pumps;

(b) Non-nuclear materials for reactors including deuterium and nuclear grade graphite;

(c) Specially designed irradiated fuel element chopping machines, dissolvers, solvent extractors and solvent extraction equipment, chemical holding or storage vessels, plutonium nitrate to oxide conversion system, plutonium oxide to metal production system;

(d) Specially designed equipment that seals the nuclear material within the cladding, and any other which normally comes in direct contact with, or directly processes, or controls, the production flow of nuclear material;

(e) Specially designed gas centrifuges and assemblies and components especially designed or prepared for use in gas centrifuges;

(f) Specially designed gas diffusion assemblies and components especially designed or prepared for use in gas diffusion enrichment;

(g) Specially designed or prepared systems, equipment and components especially designed for use in aerodynamic enrichment plants;

(h) Specially designed or prepared systems, equipment and components for use in chemical exchange or ion exchange enrichment plants;

(i) Specially designed or prepared systems, equipment and components for use in laser-based enrichment plants;

(j) Specially designed or prepared systems, equipment and components for

use in plasma separation enrichment plants;

(k) Specially designed or prepared systems, equipment and components for use in electromagnetic enrichment plants;

(l) Specially designed or prepared equipment for plants for the production of heavy water, deuterium and deuterium compounds; and

(m) Specially designed or prepared systems for the conversion of uranium ore concentrates to UO_3 , conversion of UO_3 to UF_6 , conversion of UO_3 to UO_2 , conversion of UO_2 to UF_4 , conversion of UF_4 to UF_6 , conversion of UF_6 to U metal, conversion of UF_6 to UO_2 , and conversion of UF_6 to UF_4 .

10. Ten-Year General Plans

Article 2.a(x) of the model Additional Protocol requires information regarding general plans for the succeeding ten-year period relevant to the development of the nuclear fuel cycle (including planned nuclear fuel cycle-related research and development activities) when approved by the appropriate authorities in the United States. The Department expects that the Department of Energy will be the approving authority for these plans and will be responsible for the collection of such data.

11. Activities Related to a "Site"

Article 2.b(ii) requires, upon specific request by the IAEA, a general description of activities and the identity of the person or entity carrying out activities at a particular location which has not been included as part of a "site" but which the IAEA considers may be functionally related to the activities on a "site" declared under 2(a)(iii) The U.S. Government will review such requests on a case-by-case basis. This provision relates only to element 3 above, where the United States has provided site descriptions and site maps.

Submission of Comments

All comments must be submitted to the address indicated in this notice. The Department requires that all comments be submitted in written form.

The Department encourages interested persons who wish to comment to do so at the earliest possible time. The period for submission of comments will close January 21, 2003. The Department will consider all comments received before the close of the comment period. Comments received after the end of the comment period will be considered, if possible, but their consideration cannot be assured. The Department will not accept comments accompanied by a request that a part or all of the material

be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the persons submitting the comments and will not consider them. All comments submitted in response to this notice will be a matter of public record and will be available for public inspection and copying.

The Office of Administration, Bureau of Industry and Security, U.S. Department of Commerce, displays public comments on the BIS Freedom of Information Act (FOIA) web site at <http://www.bis.doc.gov/foia>. [A-570-874]

Notice of Amended Preliminary Determination of Sales at Less Than Fair Value: Certain Ball Bearings and Parts Thereof From the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Amended Preliminary Determination.

EFFECTIVE DATE: November 20, 2002.

FOR FURTHER INFORMATION CONTACT: James Terpstra or Cindy Lai Robinson, AD/CVD Enforcement, Office 6, Group II, Import Administration, International Trade Administration, US Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone:(202) 482-3965 and (202) 482-3797, respectively.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department

of Commerce's (the Department's) regulations are to the provisions codified at 19 CFR part 351 (2001).

Significant Ministerial Errors

The Department is amending the preliminary determination of sales at less than fair value in the antidumping duty investigation of certain ball bearings and parts thereof from the People's Republic of China (PRC) to reflect the correction of several ministerial errors made in that determination's margin calculations, pursuant to 19 CFR 351.224(g)(1) and (g)(2).

A ministerial error is defined as an error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial. See 19 CFR 351.224(f). A significant ministerial error is defined as an error, the correction of which, singly or in combination with other errors, would result in (1) a change of at least five absolute percentage points in, but not less than 25 percent of, the weighted-average dumping margin calculated in the original (erroneous) preliminary determination; or (2) a difference between a weighted-average dumping margin of zero or *de minimis* and a weighted-average dumping margin of greater than *de minimis* or vice versa. See 19 CFR 351.224(g). In this case, correction of the ministerial errors results in a change in the margin considered significant within the meaning of 19 CFR 351.224(g)(1). We are publishing this amendment to the preliminary determination pursuant to 19 CFR 351.224(e). As a result of this

amended preliminary determination, we have revised the antidumping rates for two of the respondents and the weight-averaged rate applied to the cooperative exporters who were not selected as mandatory respondents.¹

Scope of Investigation

For purposes of this investigation, the products covered are ball bearings and parts thereof. For a comprehensive description of the scope of this investigation, please see the preliminary determination in this proceeding. See *Notice of Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination: Certain Ball Bearings and Parts Thereof From the People's Republic of China*, 67 FR 63609 (October 15, 2002) (*Preliminary Determination*).

Ministerial-Errors Allegation

On October 15, 2002, the Department published its preliminary determination in this proceeding. See *Preliminary Determination*. On October 15, 2002, the Department received timely allegations of ministerial errors in the *Preliminary Determination*, in accordance with section 351.224(c)(2) of the Department's regulations, from the petitioner, a domestic producer/interested party, and each of the three mandatory respondents.

The Department has reviewed the preliminary calculations, and, while disagreeing with several of the allegations, agrees that there are errors in the *Preliminary Determination* that constitute ministerial errors within the meaning of 19 CFR 351.224(f). Furthermore, we determine that the change in Wanxiang and Cixing's margins, as well as the change in the

rate applied to the un-investigated cooperative exporters, resulting from the correction of these errors, is significant pursuant to 19 CFR 351.224(g)(1). We are amending the *Preliminary Determination* to reflect the correction of these ministerial errors pursuant to 19 CFR 351.224(e). For a detailed discussion of specific ministerial error allegations and Department responses see *Memorandum From Melissa Skinner to Bernard Carreau: Ministerial Error Memorandum* dated November 13, 2002, on file in the Central Records Unit (CRU), room B-099 of the main Commerce building.

The collection of bonds or cash deposits and suspension of liquidation will be revised accordingly and parties will be notified of this determination, in accordance with sections 733(d) and (f) of the Act.

Amended Preliminary Determination

As a result of our correction of the ministerial errors, we have determined that the following dumping margins apply. In accordance with section 733(d)(2) of the Act, we are directing the Customs Service to continue to suspend liquidation of all imports of subject merchandise that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. We will instruct the Customs Service to require a cash deposit or the posting of a bond equal to the weighted-average amounts as indicated in the chart below. These suspension-of-liquidation instructions will remain in effect until further notice. The percentage weighted-average dumping margins are as follows:

| Manufacturer/exporter | Weighted-Average Margin (percent) |
|---|-----------------------------------|
| Xinchang Peer Bearing Company Ltd. | 2.39 |
| Wanxiang Group Corporation | 2.50 |
| Ningbo Cixing Group Corp and CW Bearings USA, Inc. | 2.32 |
| B&R Bearing Co. | 2.41 |
| Changshan Import & Export Company, Ltd. | 2.41 |
| Changzhou Daya Import and Export Corporation Limited | 2.41 |
| China Huanchi Bearing Group Corp. AND Ningbo Huanchi Import & Export Co. Ltd. | 2.41 |

| Fujian Nanan Fushan Hardware Machinery Electric Co., Ltd. | 2.41 |
| Guangdong Agricultural Machinery Import & Export Company | 2.41 |
| Harbin Bearing Group AND Heilongjiang Machinery and Equipment Import and Export Corporation | 2.41 |

¹ Specifically, the amended rate for Ningbo Cixing Group Corp. ("Cixing") is now 2.32, changed from 32.69 in our *Preliminary Determination*; the amended rate for Wanxiang Group Corporation ("Wanxiang") is 2.50, changed from 39.93; and the amended weighted-average rate is 2.41, changed from 22.99. The revised rate for Xinchang Peer

Bearing Company Ltd. ("Peer") is 7.11, compared with 2.39; however, the overall effect on the weighted-average dumping margin is not significant and therefore does not warrant amendment of the *Preliminary Determination* with respect to Peer. Moreover, because we are not amending Peer's margin at this time, we have not included Peer's

revised dumping margin in the re-calculated weighted-average dumping margin for the cooperative exporters who were not selected as mandatory respondents; rather, we used Peer's original *Preliminary Determination* margin.

International Trade Commission Notification

In accordance with section 733(f) of the Act, we have notified the ITC of our amended preliminary determination. If our final determination is affirmative, the ITC will determine before the later of 120 days after the date of the preliminary determination or 45 days after our final determination whether these imports are materially injuring, or threaten material injury to, the US industry.

Public Comment

Case briefs for this investigation must be submitted to the Department no later than seven days after the date of the final verification report issued in this proceeding. Rebuttal briefs must be filed five days from the deadline date for case briefs. A list of authorities used, a table of contents, and an executive summary of issues should accompany any briefs submitted to the Department. Executive summaries should be limited to five pages total, including footnotes. Section 774 of the Act provides that the Department will hold a public hearing to afford interested parties an

opportunity to comment on arguments raised in case or rebuttal briefs, provided that such a hearing is requested by an interested party. If a request for a hearing is made in this investigation, the hearing will tentatively be held two days after the rebuttal-brief deadline date at the US Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, US Department of Commerce, Room 1870, within 30 days of the publication of this notice. Requests should contain: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. Oral presentations will be limited to issues raised in the briefs.

We will make our final determination no later than February 26, 2003.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act.

Dated: November 13, 2002.

Richard W. Moreland,
Acting Assistant Secretary for Import Administration.
