

existing guidelines with new, more rigorous reporting requirements. On July 8, 2002, the Secretaries of Energy, Agriculture, and Commerce, and the Administrator of the Environmental Protection Agency wrote to be the President stating that the improvements to the existing Voluntary Greenhouse Gas Reporting Programs should:

1. Develop fair, objective, and practical methods for reporting baselines, reporting boundaries, calculating real results, and awarding transferable credits for actions that lead to real reductions.
2. Standardize widely accepted, transparent accounting methods.
3. Support independent verification of registry reports.
4. Encourage reporters to report greenhouse gas intensity (emissions per unit of output) as well as emissions or emissions reductions.
5. Encourage corporate or entity-wide reporting.
6. Provide credits for actions to remove carbon dioxide from the atmosphere as well as for actions to reduce emissions.
7. Develop a process for evaluating the extent to which past reductions may qualify for credit.
8. Assure the voluntary reporting program is an effective tool for reaching the 18 percent greenhouse gas intensity goal by 2012.
9. Factor in international strategies as well as State-level efforts.
10. Minimize transactions costs for reporters and administrative costs for the Government, where possible, without compromising the foregoing recommendations.
