

Amendment to the Agreement, dated November 21, 2002.

MidAmerican states it has served a copy of the filing on the Iowa Utilities Board, the Illinois Commerce Commission and the South Dakota Public Utilities Commission.

Comment Date: April 14, 2003.

11. Victory Garden Phase IV Partnership

[Docket No. QF90-43-006]

Take notice that on March 20, 2003, Victory Garden Phase IV Partnership (VGIV) filed with the Federal Energy Regulatory Commission (Commission) an application for recertification of a facility as a qualifying small power production facility pursuant to Section 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing. VGIV states that the facility is a 22 MW wind energy generating facility in the Tehachapi Mountains, Kern County, California. VGIV also states that the facility is interconnected with the Southern California Edison Company. VGIV further states that recertification is sought to reflect a change in the upstream ownership of the Facility.

Comment Date: April 21, 2003.

12. Sky River Partnership

[Docket No. QF91-59-007]

Take notice that on March 20, 2003, Sky River Partnership (Sky River) filed with the Federal Energy Regulatory Commission (Commission) an application for recertification of a facility as a qualifying small power production facility pursuant to section 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing. Sky River states that the facility is a 77.5 MW wind energy generating facility in the Tehachapi Mountains, Kern County, California. Sky River also states that the facility is interconnected with the Southern California Edison Company. Sky River further states that recertification is sought to reflect a change in the upstream ownership of the Facility.

Comment Date: April 21, 2003.

13. Cabazon Power Partners LLC

[Docket No. QF95-186-006]

Take notice that on March 20, 2003, Cabazon Power Partners LLC (Cabazon) filed with the Federal Energy Regulatory Commission (Commission) an application for recertification of a facility as a qualifying small power production facility pursuant to section 292.207 of the Commission's

regulations. No determination has been made that the submittal constitutes a complete filing. Cabazon states that the facility is a 39.75 MW wind energy generating facility in Cabazon, Riverside County, California. Cabazon also states that the facility is interconnected with the Southern California Edison Company. Cabazon further states that recertification is sought to reflect a change in the upstream ownership of the Facility.

Comment Date: April 21, 2003.

14. Victory Garden Power Partners I LLC

[Docket No. QF99-92-002]

Take notice that on March 20, 2003, Victory Garden Power Partners I LLC (VGI) filed with the Federal Energy Regulatory Commission (Commission) an application for recertification of a facility as a qualifying small power production facility pursuant to section 292.207 of the Commission's regulations. No determination has been made that the submittal constitutes a complete filing. VGI states that the facility is a 6.75 MW wind energy generating facility in the Tehachapi Mountains, Kern County, California. VGI also states that the facility is interconnected with the Southern California Edison Company. VGI further states that recertification is sought to reflect a change in the upstream ownership of the Facility.

Comment Date: April 21, 2003.

15. PJM Interconnection, L.L.C.

[Docket No. RT01-2-006]

Take notice that on March 20, 2003, PJM Interconnection, L.L.C. (PJM) tendered for filing with the Federal Energy Regulatory Commission (Commission) in compliance with the Commission's order of December 20, 2002, in the captioned proceeding, 100 FERC ¶ 61,345, (1) revised pages to the Amended and Restated Operating Agreement of PJM Interconnection, L.L.C. and to the PJM Open Access Transmission Tariff, and (2) complete, revised volumes of the PJM Tariff, Operating Agreement, Reliability Assurance Agreement Among Load Serving Entities in the PJM Control Area and the PJM West Reliability Assurance Agreement.

PJM states that copies of this filing, excluding the full revised PJM Tariff, Operating Agreement, RAA and West RAA, have been served on all parties, as well as on all PJM Members and the state electric utility regulatory commissions in the PJM region. PJM states that it will promptly post the complete revised volumes of the PJM

Tariff, Operating Agreement, RAA and West RAA on PJM's Web site (<http://www.pjm.com>) and will deliver a hard copy of any or all of those documents to any person upon request. PJM requests that the Commission waive the service requirements of its Rule 2010(a), 18 CFR 385.2010(a), to the extent necessary to accommodate these arrangements.

Comment Date: April 21, 2003.

Standard Paragraph

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866)208-3676, or for TTY, contact (202)502-8659. Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Magalie R. Salas,

Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Alabama Power Company; Notice of Availability of Environmental Assessment

March 28, 2003.

In accordance with the National Environmental Policy Act of 1969 and

the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects' staff has prepared an Environmental Assessment (EA) for an application requesting Commission approval to permit Russell Lands, Inc. the use of project lands to renovate a golf course at Willow Point Golf and Country Club located at the Martin Dam Hydroelectric Project. The project is located on the Tallapoosa River in the counties of Coosa, Elmore, and Tallapoosa, Alabama. The Willow Point Golf and Country Club site does not involve federal or tribal lands.

The EA contains staff's analysis of the potential environmental impacts of the proposal and concludes that approval of the proposal would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the order, issued on March 28, 2003, and the EA are available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number (prefaced by P-) and excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

For further information, contact Jean Potvin at (202) 502-8928.

Magalie R. Salas,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP02-434-000]

ANR Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Westleg Project

March 28, 2003.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by ANR Pipeline Company (ANR) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff

concludes that approval of the proposed project ("WestLeg Project"), with appropriate mitigating measures as recommended, would not constitute a major Federal action significantly affecting the quality of the human environment. The EA evaluates alternatives to the proposal, including the no-action alternative, major route alternatives, and route variations.

The EA assesses the potential environmental effects of the construction, operation, and abandonment of facilities in Illinois and Wisconsin. The purpose of the WestLeg Project is to increase ANR's capacity to supply gas to the Madison and Janesville, Wisconsin market areas by 220,000 dekatherms per day (Dth/d), with 86,500 Dth/d of this capacity used to replace volumes currently provided by Northern Natural Gas Company. ANR reports that 60,000 Dth/d would be made available to Wisconsin Power and Light Company to supply gas to fuel a new 600-megawatt power plant currently being constructed by Calpine Corporation in Beloit, Wisconsin.

The proposed project would install and/or replace the following facilities:

- **Madison Lateral Loop:** ANR's existing Madison Lateral easement contains two pipelines (a 10- and 12-inch-diameter pipeline). In the WestLeg Project, ANR would construct 26.3 miles of 30-inch-diameter loop within the existing easement. The Madison Lateral Loop would extend from McHenry County, Illinois, into Walworth and Rock Counties, Wisconsin.

- **Beloit Lateral Replacement:** ANR would abandon by removal two 6.5-mile-long, 4- and 6-inch-diameter laterals that parallel each other in Rock County. ANR would replace them with one new 20-inch-diameter lateral.

- ANR would also construct one new mainline valve on the Madison Lateral in Rock County; expand four existing valves on the Madison Lateral in McHenry, Walworth, and Rock Counties; expand one existing valve on the Beloit Lateral; construct one new meter station on the Beloit Lateral, and make minor modifications to two meter stations in Dane County, Wisconsin.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference and Files Maintenance Branch, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to Federal, state, and local agencies; public interest groups; interested individuals;

newspapers; libraries; and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please follow these instructions carefully to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426;

- Label one copy of the comments for the attention of Gas Branch 1, PJ-11.1;

- Reference Docket No. CP02-434-000; and

- Mail your comments so that they will be received in Washington, DC on or before May 2, 2003.

Please note that we are continuing to experience delays in mail deliveries from the U.S. Postal Service. As a result, we will include all comments that we receive within a reasonable time frame in our environmental analysis of this project. However, the Commission strongly encourages electronic filing of any comments or interventions or protests to this proceeding. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Before you can file comments you will need to create a free account which can be created by clicking on "Login to File" and then "New User Account."

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to be a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).¹ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs,

¹ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.
