Such respondents are directed to file a letter signed by the company's responsible officer, certifying that there is no date to report.

The information contained in these two reports provides the necessary detail to enable the Commission to fulfill its regulatory responsibilities. Automated reporting of these data greatly enhances the Commission's ability to process and analyze the extensive amount of data that are needed to administer its rules. These reports ensure that the regulated operation of the carriers do not subsidize the non-regulated operations of those same carriers.
