

standard over the next three years. However, we have assumed that one furnace will be rebuilt per year and that each facility will make a major adjustment once per year which will require revising its operational plan.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 229 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of secondary lead smelters.

Estimated Number of Respondents: 23.

Frequency of Response: Semiannual and initially.

Estimated Total Annual Hour Burden: 16,034 hours.

Estimated Total Capital and Operations & Maintenance (O & M) Annual Costs: \$150,000 which includes zero annualized capital/startup costs and \$150,000 annual O&M costs.

Changes in the Estimates: There is an increase of one hour in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens due to the rounding-off of the mathematical calculations. There was no increase in the number of new or modified sources. The increase in the annual cost, is due to the use of an updated revised hourly pay rate from the United States Department of Labor.

Title: Recordkeeping and Reporting for 40 CFR Part 258—Solid Waste Disposal Facilities and Practices (OMB Control No. 2050-0122, EPA ICR Number 1381.07). This is a request to renew an existing approved collection that is scheduled to expire on August 31, 2003.

Under the OMB regulations, the Agency may continue to conduct or sponsor the collection of information

while this submission is pending at OMB.

Abstract: In order to effectively implement and enforce final changes to 40 CFR part 258 on a State level, owners/operators of municipal solid waste landfills have to comply with the final reporting and recordkeeping requirements. Respondents include owners or operators of new municipal solid waste landfills (MSWLFs), existing MSWLFs, and lateral expansions of existing MSWLFs. The respondents, in complying with 40 CFR part 258, are required to record information in the facility operating record, pursuant to § 258.29, as it becomes available. The operating record must be supplied to the State as requested until the end of the post-closure care period of the MSWLF. The information collected will be used by the State Director to confirm owner or operator compliance with the regulations under part 258. These owners or operators could include Federal, State, and local governments, and private waste management companies. Facilities in SIC codes 922, 495, 282, 281, and 287 may be affected by this rule.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 101 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/Operators of Municipal Solid Waste Landfills.

Estimated Number of Respondents: 1900.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 191,028 hours.

Estimated Total Annualized Capital and Operating & Maintenance Cost Burden: \$2,210,853.

Changes in the Estimates: There is a decrease of 48,830 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is a result of decreasing numbers (approximately 17%) of MSWLFs.

Dated: August 12, 2003.

Acting Director, Collection Strategies Division.
