

TABLE 1.—APPLICABLE HOSE P/NS—Continued

Airplane model	Boeing hose P/N	Titeflex PMA P/N	Used for	Applicable alert service bulletin
(5) 757–300 airplanes	S312N512–1 S312N512–2 S312N512–3 S312N512–4 BACH5R0110YP BACH5S0074XN	113701–1 113701–2 113701–3 113701–4	Engine and cargo compartment fire extinguishing bottles.	757–26A0044, Revision 1, dated November 14, 2002.
(6) 767–200, –300, and –300F airplanes.	BACH5R0085YU BACH5R0140YU BACH5S0077XT BACH5S0140XT BACH5S0184XX BACH5R0127YY		Cargo compartment fire extinguishing bottles.	767–26A0121, dated December 19, 2001.

(g) If the hose manufacture date code is before 11/99 or after 1/01, or if the manufacture date is 11/99 through 1/01 and there is a permanent white dot on the ID band, no further action is required for that hose.

(h) If the hose manufacture date code is 11/99 through 1/01 inclusive and there is no permanent white dot on the ID band, replace the hose with a serviceable hose or perform an indirect conductive inspection/test for proper heat treat. Use the accomplishment instructions of the applicable ASB listed in Table 1 of this AD.

(i) Replace the hose with a serviceable hose if any B-nut is improperly heat treated.

Credit For Previous Inspections

(j) Previous inspections performed using ASB 737–26A1108, dated November 15, 2001, ASB 737–26A1109, dated November 15, 2001, ASB 737–26A1109, Revision 1, dated November 7, 2002, ASB 747–26A2269, dated November 1, 2001, ASB 757–26A0043, dated November 15, 2001, and ASB 757–26A0044, dated November 15, 2001, comply with the inspection requirements of this AD.

Alternative Methods of Compliance

(k) The Manager, Boston Aircraft Certification Office, has the authority to approve alternative methods of compliance for this AD if requested using the procedures found in 14 CFR 39.19.

Material Incorporated by Reference

(l) The Director of the Federal Register approved the incorporation by reference of the documents listed in the following Table 2 in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. You can get a copy from Boeing Commercial Airplane Group, PO Box 3707, Seattle, Washington 98124–2207. You can review copies at the FAA, New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, MA; or at the Office of the Federal Register, 800 North Capitol Street, NW, suite 700, Washington, DC.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2003–16411; Airspace Docket No. 03–ACE–77]

Modification of Class E Airspace; Johnson, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action modifies the Johnson, KS Class E airspace area. Area

Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAPs) and a nondirectional radio beacon (NDB) SIAP have been developed to serve Stanton County Municipal Airport. The existing SIAP serving Stanton County Municipal Airport will be cancelled when these new SIAPs become effective. An examination of controlled airspace for Johnson, KS revealed a discrepancy in the Stanton County Municipal Airport Airport Reference Point (ARP) used in the legal description of the Class E airspace area. The examination also revealed that this airspace area does not provide adequate airspace for diverse

departures. This action provides controlled airspace of appropriate dimensions to protect aircraft departing Stanton County Municipal Airport in instrument weather conditions and aircraft executing SIAPs to the airport. It also incorporates the revised Stanton County Municipal Airport ARP into the Class E airspace legal description and brings the airspace area and legal description into compliance with FAA Orders.

DATES: This direct final rule is effective on 0901 UTC, February 19, 2004. Comments for inclusion in the Rules Docket must be received on or before December 16, 2003.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number FAA-2003-16411/Airspace Docket No. 03-ACE-77, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329-2525.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Johnson, KS. A review of controlled airspace at Johnson, KS revealed a discrepancy in the Stanton County Municipal Airport ARP used in the legal description for this airspace area. The review also indicates existing 700 feet Above Ground Level (AGL) airspace does not meet criteria for diverse departures as specified in FAA Order 7400.2E, Procedures for Handling Airspace Matters. The criteria in FAA Order 7400.2E for an aircraft to reach 1200 feet AGL is based on a standard climb gradient of 200 feet per mile plus the distance from the ARP to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. The area is enlarged to conform to the criteria in FAA Order 7400.2E. This airspace area

also encompasses required airspace for the newly developed RNAV (GPS) SIAPs that serve Runway (RWY) 17 and RWY 35 at Stanton County Municipal Airport. The new NDB SIAP has a higher final approach fix crossing altitude than the NDB or GPS SIAP being cancelled. This eliminates the need for the north extension of the Johnson, KS Class E airspace area. This action brings the legal description of this airspace area into compliance with FAA Order 7400.2E. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both

docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2003-16411/Airspace Docket No. 03-ACE-77." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, dated September 2, 2003, and effective

September 16, 2003, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE KS E5 Johnson, KS

Johnson, Stanton County Municipal Airport, KS

(Lat. 37°34'58" N., long. 101°43'58" W.)

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Stanton County Municipal Airport.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2003-15695; Airspace Docket No. 03-AAL-17]

Establishment of Class E Airspace; Kivalina, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Kivalina, AK to provide adequate controlled airspace to contain aircraft executing two new Standard Instrument Approach Procedures (SIAP). This Rule results in new Class E airspace upward from 700 feet (ft.) and 1,200 ft. above the surface at Kivalina, AK.

EFFECTIVE DATE: 0901 UTC, February 19, 2004.

FOR FURTHER INFORMATION CONTACT: Derril Bergt, AAL-531, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-2796; fax: (907) 271-2850; e-mail: Derril.Bergt@faa.gov. Internet address: <http://www.alaska.faa.gov/at>.

SUPPLEMENTARY INFORMATION:

History

On Tuesday, August 19, 2003, the FAA proposed to revise part 71 of the Federal Aviation Regulations (14 CFR part 71) to create new Class E airspace upward from 700 ft. above the surface and 1,200 ft. above the surface at Kivalina, AK (68 FR 49727). The action

was proposed in order to add Class E airspace sufficient in size to contain aircraft while executing two new SIAPs for the Kivalina Airport. The new approaches are (1) Area Navigation-Global Positioning System (RNAV GPS) Runway 30 original, and (2) RNAV (GPS) Runway 12 original. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments have been received, thus, the rule is adopted as proposed.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9L, *Airspace Designations and Reporting Points*, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be revoked and revised subsequently in the Order.

The Rule

This revision to 14 CFR part 71 establishes Class E airspace at Kivalina, Alaska. This additional Class E airspace was created to accommodate aircraft executing new SIAPs and will be depicted on aeronautical charts for pilot reference. The intended effect of this rule is to provide adequate controlled airspace for IFR operations at Kivalina Airport, Kivalina, Alaska.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, *Airspace Designations and Reporting Points*, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

* * * * *

Paragraph 6005 Class E airspace extending upward from 700 feet or more above the surface of the earth.

* * * * *

AAL AK E5 Kivilina, AK [New]

Kivilina Airport, AK

(Lat. 67°44'10" N., long. 164°33'49" W.)

That airspace extending upward from 700 feet above the surface within a 6.3-mile radius of the Kivilina Airport and that airspace extending upward from 1,200 feet above the surface within an area bounded by 67°16'50" N., 163°46'00" W., to 67°12'50" N., 163°53'00" W., to 67°30'00" N., 164°30'00" W., to point of beginning and that airspace extending upward from 1,200 feet above the surface between Federal Colored Airway Blue 2 and Victor Airway V531 south of a line at 68°10'00" N. to the point at which B2 and V531 join at 67°19'50" N., 163°28'00" W., excluding that airspace designated for Federal airways.

* * * * *

Issued in Anchorage, AK, on October 27, 2003.

Trent S. Cummings,

Manager, Air Traffic Division, Alaskan Region.
