Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Docket No. FAA–2003–16410; Airspace Docket No. 03–ACE–79]

Establishment of Class E2 Airspace; and Modification of Class E5 Airspace; Hutchinson, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule establishes a Class E surface area at Hutchinson, KS for those times when the air traffic control tower (ATCT) is closed. It also modifies the Class E airspace area extending upward from 700 feet above the surface at Hutchinson, KS by correcting the identified type of one navigational aid and the location of another.

The effect of this rule is to provide appropriate controlled Class E airspace for aircraft executing instrument approach procedures to Hutchinson Municipal Airport and to segregate aircraft using instrument approach procedures in instrument conditions from aircraft operating in visual conditions.

EFFECTIVE DATE: 0901 UTC, February 19, 2004.

SUPPLEMENTARY INFORMATION:

History

On Thursday, November 20, 2003, the FAA proposed to amend 14 CFR part 71 to establish a Class E surface area and to modify other Class E airspace at Hutchinson, KS (68 FR 65417). The proposal was to establish a Class E surface area at Hutchinson, KS, for those times when the air traffic control tower (ATCT) is closed. It was also to modify the Class E5 airspace and its legal description by revising the identified type of one navigational aid and the location of another navigational aid serving Hutchinson Municipal Airport and used in the Class E airspace legal description. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) establishes Class E airspace designated as a surface area for an airport at Hutchinson, KS. Controlled airspace extending upward from the surface of the earth is needed to contain aircraft executing instrument approach procedures. This airspace will be in effect during those times when the ATCT is closed. Weather observations will be provided by an Automated Surface Observing System (ASOS) and communications will be directed with Wichita ATCT.

This rule also revises the Class E airspace area extending upward from 700 feet above the surface at Hutchinson, KS. An examination of this Class E airspace area for Hutchinson, KS revealed a discrepancy in the identified type of one navigational aid and a discrepancy in the location of another navigational aid serving Hutchinson Municipal Airport and used in the Class E airspace legal description. The Hutchinson Very High Frequency Omni-Directional Range (VOR)/Distance Measuring Equipment (DME) is misidentified as a VHF Omni-Directional Range/Tactical Air Navigation (VORTAC). The location of the SALTT Outer Compass Locator (LOM) is erroneous. This action corrects these discrepancies. The areas will be depicted on appropriate aeronautical charts.

Class E airspace areas designated as surface areas are published in Paragraph

6002 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of the same Order. The Class E airspace designations listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, Airspace Designations and Reporting Points, dated September 2, 2003, and effective September 16, 2003, is amended as follows:

Paragraph 6002 Class E airspace designated as surface areas.

[Docket No. FAA–2003–16760; Airspace Docket No. 03–ACE–97]

Modification of Class E Airspace; Colby, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action modifies the Class E airspace area at Colby, KS. A review of controlled airspace for Shaltz Field indicates it does not comply with the criteria for 700 feet Above Ground Level (AGL) airspace required for diverse departures. The dimensions of

controlled airspace for protecting arriving aircraft were also found to be inaccurate. The area is modified to conform to the criteria in FAA Order 7400.2E.

DATES: This direct final rule is effective on 0901 UTC, April 15, 2004. Comments for inclusion in the Rules Docket must be received on or before February 25, 2004.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590–0001. You must identify the docket number FAA–2003–16760/ Airspace Docket No. 03–ACE–97, at the beginning of your comments. You may also submit comments on the Internet at http://dms.dot.gov. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Docket Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1–800–647–5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Colby, KS. An examination of controlled airspace for Shaltz Field reveals it does not meet the criteria for 700 feet AGL airspace required for diverse departures as specified in FAA Order 7400.2E, Procedures for Handling Airspace Matters. The criteria in FAA Order 7400.2E for an aircraft to reach 1200 feet AGL is based on a standard climb gradient of 200 feet per mile plus the distance from the Airport Reference Point (ARP) to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. The examination also revealed that appropriate controlled airspace for aircraft executing Instrument Approach Procedures to Shaltz Field is adequate without the extension to the Colby, KS Class E airspace area. This amendment expands the Colby, KS Class E airspace area from a 6-mile radius to a 6.5-mile radius of Shaltz Field, eliminates the extension to the airspace area, deletes the Colby nondirectional radio beacon (NDB) from the legal description and
