# Bureau of Educational and Cultural Affairs Request for Grant Proposals: Survey of International Educational Exchange Activity in the United States (Foreign Students and Scholars in the U.S. and U.S. Students Studying Abroad)

Summary: The Educational Information and Resources Branch, Office of Global Educational Programs, Bureau of Educational and Cultural Affairs (the Bureau) announces an open competition for a survey of International Educational Exchange Activity in the United States. Public and private nonprofit organizations meeting the provisions described in Internal Revenue Code section 26 U.S.C. 501(c)(3) may submit proposals to conduct a statistical survey (census) of foreign nationals affiliated with institutions of higher learning in the United States. The survey, which should be conducted in the most economical way possible, should identify the number of foreign students and scholars studying, conducting research, or teaching at all accredited universities and colleges in the United States during the 2004/2005 academic year (fall 2004 through spring 2005). It must also provide detailed individual student profile data, country-specific aggregate data that enumerate the numbers of foreign students and scholars from a given country affiliated with individual U.S. institutions. Finally, as an indicator of U.S. institutional support for international educational exchange, the report should also include data about the number of American students studying abroad in credit-bearing programs of all types (year-long, semester, short-term and summer). Proposals should describe the methodology that will be used to collect the data, whether by survey, in collaboration with the Department of Homeland Security or some combination thereof, and how the material will be analyzed and presented to the public. The proposal must also include plans to establish an advisory

board to provide assistance in identifying and framing policy issues that may need to be addressed by policymakers.

#### **Program Information**

*Overview:* The State Department's Bureau of Educational and Cultural Affairs, with its mandate under the Fulbright-Hays Act to promote mutual understanding through international educational exchange, has supported a survey of foreign students in the United States since 1974 in order to gain an accurate and up-to-date picture of international educational exchange activity in the United States. Recent reports have expanded on the original survey's parameters to include foreign scholars and U.S. students studying overseas.

Proposals to conduct this project should describe plans for a statistical survey that would offer a detailed and comprehensive picture of the number and academic characteristics (major fields of study or program, level of study, etc.) of non-immigrant foreign nationals (that is, excluding permanent residents and refugees) affiliated with (*i.e.*, enrolled at, employed by, etc.) American institutions of higher learning, as well the number of U.S. students studying abroad. Topics that should be covered in the survey include the number of foreign students and scholars, their gender and countries of origin. Information about students' academic level (undergraduate, graduate, post-doctorate), fields of study, primary source of financial support, financial contributions they make while in the United States, and location of study should be included.

Proposals may request Bureau funding of a publication, Web site, database, newsletter, or another medium that is presented as a viable vehicle for making this data widely available in a timely manner and in a clear and concise format. The Bureau reserves the right to reproduce, publish or otherwise use any work developed under this grant for U.S. Government purposes.

Pending successful implementation of this program and the availability of funds in subsequent fiscal years, it is ECA's intent to renew this grant for two additional fiscal years before the next competition. Future support will be contingent upon accurate data collection, quality of presentation of that data, and prompt publication of the census.

*Guidelines*: Proposals should include a precise description of the methodology to be used to obtain the data called for in this solicitation. Applicants are reminded of the need to find the most economical approach to gathering the data and are encouraged to explore electronic data collection. Applicants should also seek ways of making the information available within the academic year that it is collected.

Data collected should be published annually for public consumption. Applicants are also encouraged to include information about their capacity to carry out electronic surveys and report on findings at the request of the Bureau that would focus on one or more critical issues that may arise during the period in which census data is being gathered.

To provide for a more detailed analysis and cross tabulation of the characteristics of foreign students studying in the United States, individual student profile data should also be collected. This individual student profile data should be provided to the Bureau in a format that is country-specific and should show the number of students from a specific country attending selected institutions of higher education in each state of the U.S.

The Bureau seeks a clear presentation and rigorous analysis of the data collected that will draw conclusions about trends in foreign student enrollments, numbers of foreign scholars on U.S. campuses and American students studying abroad that can be used to guide policy discussions for both government and academia.

The grantee must establish an advisory board on the annual survey to provide assistance in identifying and framing policy issues to be addressed; the board should meet at least once a year. Board members would likely be drawn from a broad range of educational associations and organizations such as NAFSA: Association of International Educators, the American Association of **Collegiate Registrars and Admissions** Officers and the Council of Graduate Schools, among others, and would be expected to provide perspectives on topics that are related to the internationalization of higher education.

Scholarly analyses of survey data addressing pertinent policy issues should be included in the final report, which will be read by policymakers in government, academia, and business, as well as practitioners in international educational exchange. The report should also include a narrative on the mechanics and uses of data analysis, highlighting how conclusions can be drawn from the data collected, some of the limitations of that analysis, and how the data can benefit the educational institutions supplying it, for example, as a campus advocacy or recruiting tool. Applicants should include with the proposal a complete list of proposed chapter headings and sample analyses.

The Bureau welcomes innovative approaches to the presentation of material, including possible breakdowns for minority-serving institutions such as Historically Black Colleges and Universities and the Hispanic Association of Colleges and Universities. The Bureau also encourages applicants to consider including comment on other topics of current interest in the final report, such as:

(1) How the international exchange population is affected by U.S. visa policies;

(2) How student flows to the U.S. may have been affected by efforts of other countries to attract foreign students, by the expansion of the European Union and its efforts to build an academic market via the Bologna Agreement, etc.

(3) How political and economic trends in other countries are reflected in student flows to the U.S.;

(4) How economic trends in the U.S., including the rise in tuition levels and the cost of living, may have affected student flows to the U.S.;

(5) As an element of global trade, how international student flows may have commercial significance for the development of foreign markets for U.S. education and training;

(6) The impact of international students and scholars on U.S. academic institutions and departments;

(7) Demonstrated benefits of study abroad; for example, as seen by employers;

(8) U.S. institutions' activities to educate foreign students in their home countries, through, for example, overseas campuses or distance education programs to complement the data now collected on education of foreign students in the United States.

(9) The numbers of foreign students studying in intensive English language programs in the United States.

The grant should begin on or about October 1, 2004, and run through September 30, 2005.

Budget Guidelines: Grants awarded to eligible organizations with less than four years experience in conducting international exchange programs will be limited to \$60,000. The Bureau anticipates awarding one grant in the amount of \$190,000 to support program and administrative costs required to implement this program. The Bureau encourages applicants to provide maximum levels of cost-sharing and funding from private sources in support of its programs. Applicants must submit a comprehensive budget for the entire program. Awards may not exceed \$190,000. There must be a summary budget as well as breakdown reflecting both administrative and program budgets. Applicants may provide separate sub-budgets for each program component, phase, location, or activity to provide clarification.

Allowable costs for the program include the following:

(1) Salaries and fringe benefits; travel and per diem;

(2) Other direct costs, inclusive of rent, utilities, etc.;

(3) Overhead expenses and auditing costs.

# Diversity, Freedom and Democracy Guidelines

Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life. "Diversity" should be interpreted in the broadest sense and encompass differences including, but not limited to ethnicity, race, gender, religion, geographic location, socioeconomic status, and disabilities. Applicants are strongly encouraged to adhere to the advancement of this principle both in program administration and in program content. Please refer to the review criteria under the "Support for Diversity" section for specific suggestions on incorporating diversity into the total proposal. Public Law 104-319 provides that "in carrying out programs of educational and cultural exchange in countries whose people do not fully enjoy freedom and democracy," the Bureau "shall take appropriate steps to provide opportunities for participation in such programs to human rights and democracy leaders of such countries." Public Law 106–113 requires that the governments of the countries described above do not have inappropriate influence in the selection process. Proposals should reflect advancement of these goals in their program contents, to the full extent deemed feasible.

## Adherence to All Regulations Governing the J Visa

The Bureau of Educational and Cultural Affairs is placing renewed emphasis on the secure and proper administration of Exchange Visitor (J visa) Programs and adherence by grantees and sponsors to all regulations governing the J visa. Therefore, proposals should demonstrate the applicant's capacity to meet all requirements governing the administration of Exchange Visitor Programs as set forth in 22 CFR part 62, including the oversight of Responsible Officers and Alternate Responsible Officers, screening and selection of program participants, provision of prearrival information and orientation to participants, monitoring of participants, proper maintenance and security of forms, record-keeping, reporting and other requirements.

If applicable, the Grantee will be responsible for issuing DS–2019 forms to participants in this program.

All eligible proposals will be reviewed by the program office, as well as the Public Diplomacy section overseas, where appropriate. Eligible proposals will be subject to compliance with Federal and Bureau regulations and guidelines and forwarded to Bureau grant panels for advisory review. Proposals may also be reviewed by the Office of the Legal Adviser or by other Department elements. Final funding decisions are at the discretion of the Department of State's Assistant Secretary for Educational and Cultural Affairs. Final technical authority for assistance awards resides with the Bureau's Grants Officer.

## **Review Criteria**

The Bureau will consider the past performance of prior recipients and the demonstrated potential of new applicants.

(7) Project Evaluation: Proposals should include a plan to evaluate the activity's success, both as the activities unfold and at the end of the program. A draft survey questionnaire or other technique plus description of a methodology to use to link outcomes to original project objectives are recommended. Successful applicants will be expected to submit intermediate reports after each project component is concluded or quarterly, whichever is less frequent.

(8) *Cost-Effectiveness:* The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate.

(9) *Cost-sharing:* Proposals should maximize cost-sharing through other private sector support as well as institutional direct funding contributions.

Authority: Overall grant making authority for this program is contained in the Mutual Educational and Cultural Exchange Act of 1961, Public Law 87-256, as amended, also known as the Fulbright-Hays Act. The purpose of the Act is "to enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries \* \* \*; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations \* and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." # Notice of Intent To Rule on Request To Release Airport Property Owned by the Cities of Winfield and Arkansas City, Winfield, Kansas

**AGENCY:** Federal Aviation Administration, (FAA), DOT. **ACTION:** Notice of Request to Release Airport Property.

**SUMMARY:** The FAA proposes to rule and invites public comment on the release of

approximately 654 acres of airport land located approximately 15 miles from the Strother Field Airport/Industrial Park under the provisions of Section 125 of the Wendell H. Ford Aviation Investment Reform Act for the 21st Century (AIR 21).

**DATES:** Comments must be received on or before July 28, 2004.

ADDRESSES: Comments on this application may be mailed or delivered to the FAA at the following address: Federal Aviation Administration, Central Region, Airports Division, ACE– 610C, 901 Locust, Kansas City, Missouri 64106–2325. In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. Jerald Hooley, Chairman, Strother Field Commission, at the following address: Strother Field Airport/Industrial Park, P.O. Box 747, Winfield, Kansas 67156.

FOR FURTHER INFORMATION CONTACT: Mrs. Nicoletta S. Oliver, Airports Compliance Specialist, Federal Aviation Administration, Central Region, Airports Division, ACE–610C, 901 Locust, Kansas City, Missouri 64106– 2325. The request to release property may be reviewed in person at this same location.

**SUPPLEMENTARY INFORMATION:** The FAA invites public comment on the request to release property owned by the Cities of Winfield and Arkansas City, Winfield, Kansas, under the provisions of AIR21.

On April 8, 2004, the FAA determined that the request to release property owned by the Cities of Winfield and Arkansas City, Winfield, Kansas, submitted by the Strother Field Commission met the procedural requirements of the Federal Aviation Regulations, Part 155.

The FAA will approve or disapprove the request, in whole or in part, no later than July 30, 2004.

The following is a brief overview of the request.

The Strother Field Commission requests the release of approximately 654 acres of airport property on the West Auxiliary Site, which was acquired through the Surplus Property Act of 1944. This land is located nearly 15 miles from the airport and was used by the Army during World War II as an auxiliary land site, but is currently not being used for aeronautical purposes. Because of this property's distance from the actual location of the airport/ industrial park, staff is not able to regularly patrol or inspect this property. The release of the property will allow for the sale of the land to generate revenue for use at the Strother Field Airport/Industrial Park. The Strother
