Agency for Toxic Substances and Disease Registry

[ATSDR–200]

Development of Set 18 Toxicological Profiles for Public Comment

AGENCY: Agency for Toxic Substances and Disease Registry (ATSDR),

Department of Health and Human Services (HHS).

ACTION: Notice of the selection of substances for profile development.

SUMMARY: This notice announces the 18th set of toxicological profiles prepared by ATSDR, comprising the development of one new and five updated priority hazardous substances.

FOR FURTHER INFORMATION CONTACT: Ms. Jessilynn B. Taylor, Agency for Toxic Substances and Disease Registry (ATSDR), Division of Toxicology, 1600 Clifton Road, NE., Mailstop F–32, Atlanta, Georgia 30333, telephone (770) 488–3313.

SUPPLEMENTARY INFORMATION: The Superfund Amendments and Reauthorization Act (SARA) (Pub. L. 99–499) amends the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 *et seq.*) by establishing certain requirements for ATSDR and the U.S. Environmental Protection Agency (EPA) concerning hazardous substances that are most commonly found at facilities on the CERCLA National Priorities List (NPL). Among these statutory requirements is a mandate for the Administrator of ATSDR to prepare

toxicological profiles for each substance included on the priority lists of hazardous substances. ATSDR and EPA identified 275 hazardous substances that pose the most significant potential threat to human health. The availability of the revised list of the 275 priority substances was announced in the **Federal Register** on November 7, 2003 (68 FR 63098). For prior versions of the list of substances, see **Federal Register** notices dated April 17, 1987 (52 FR 12866); October 20, 1988 (53 FR 41280); October 26, 1989 (54 FR 43619); October 17, 1990 (55 FR 42067); October 17, 1991 (56 FR 52166); October 28, 1992 (57 FR 48801); February 28, 1994 (59 FR 9486); April 29, 1996 (61 FR 18744); November 17, 1997 (62 FR 61332); October 21, 1999 (64 FR 56792); and October 25, 2001 (66 FR 54014).

Availability

This notice announces the 18th set of toxicological profiles prepared by ATSDR, comprising the development of one new and five updated toxicological profiles. The following toxicological profiles will be developed and available for a 90-day public comment period on or about October 17, 2004.

18TH SET

Toxicological profile	CAS. No.
1. Vinyl Chloride (update)	000075–01–4
2. Dichlorobenzenes (update)	
1,2-Dichlorobenzene	000095–50–1
1,3-Dichlorobenzene	00541–73–1
1,4-Dichlorobenzene	00106–46–7
3. 1,1,1-Trichloroethane (update)	000071–55–6
4. Cyanide (update)	000057–12–5
Hydrogen Cyanide	000074–90–8
Sodium Cyanide	000143–33–9
Potassium Cyanide	000151–50–8
5. Hydrogen Sulfide (update)	007783–065–4
6. 1,4-Dioxane	000123–91–3

Dated: June 30, 2004.

[Program Announcement 04266]

Comprehensive Care for HIV-Infected Residents of the Kibera Slum, Nairobi, Kenya; Notice of Intent To Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program to

provide a model program for comprehensive AIDS care in Kenya. This program should specifically facilitate the feasibility and acceptability of providing antiretroviral (ARV) treatment, using locally appropriate approaches, and should operate in close collaboration with the Kenyan Ministry of Health. The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to the African Medical and Research Foundation (AMREF). In 2002, AMREF was selected from among several

potential collaborators as the implementing partner for a pilot program of antiretroviral treatment in Kibera slum. The organization was chosen based on technical capacity, the fact that the organization was already operating a community-based clinic in an appropriate area (safe, accessible, serving extremely poor clientele) of Kibera slum, and the willingness of this partner to work in very close collaboration with the Ministry of Health, in line with CDC goals. The program implementation has been successful, and AMREF is the only organization appropriately situated to continue to operate the program. In addition to the characteristics that resulted in the initial selection, AMREF has now acquired critical additional technical expertise related to provision of clinic based services for people with HIV including ARV therapy, as well as with implementation of community-based services related to this care.

C. Funding

Approximately \$500,000 is available in FY 2004 to fund this award. It is expected that the award will begin on or before August 15, 2004, and will be made for a 12-month budget period within a project period of up to five years. Funding estimates may change.

D. Where To Obtain Additional Information

For general comments or questions about this announcement, contact: Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, telephone: 770-488-2700.

For technical questions about this program, contact: Barbara Marston, M.D., Project Officer, Global Aids Program (GAP), Kenya Country Team, National Center for HIV, STD and TB Prevention, Centers for Disease Control and Prevention (CDC), PO Box 606 Village Market, Nairobi, Kenya, telephone: 256-20-271-3008, e-mail: bmarston@kisian.mimcom.net.

Dated: July 2, 2004.

William P. Nichols,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

[Program Announcement 04125]

The Association of State and Territorial Chronic Disease Program Directors; Notice of Intent To Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program to support the establishment of a national initiative to develop and implement systems and procedures that result in the inclusion of comprehensive chronic disease prevention and control concepts in the planning and delivery of health promotion and health care services at the state level. The Catalog of Federal Domestic Assistance number for this program is 93.945.

B. Eligible Applicant

Assistance will be provided only to the Association of State and Territorial Chronic Disease Program Directors (CDD). No other applications are solicited.

The CDD is the officially designated organization to advise and represent the interest of state health officials in comprehensive chronic disease prevention and control and health promotion activities. Because of its relationship with ASTHO and all State and Territorial chronic disease prevention and health promotion programs, the CDD can provide state and national leadership for developing programs to prevent and control chronic disease, including behaviors and conditions that contribute to the development of chronic disease conditions. The CDD is uniquely capable of analyzing, advising, and fulfilling liaison responsibilities for comprehensive chronic disease prevention and control activities in such broad-based specialties as aging, arthritis, cancer, cardiovascular disease, diabetes, diabetes health education, managed care, nutrition, osteoporosis, physical activity, risk reduction, and tobacco use. The CDD membership is multidisciplinary, including physicians, nurses, health educators, social workers, nutritionists, epidemiologists, administrators, and others. CDD has served as a policy development and capacity-building organization for state chronic disease matters since 1988 and has as one of its major objectives, the

sharing of information within and between State health departments.

The CDD is responsible for developing, implementing and evaluating state-based chronic disease prevention and health promotion programs, therefore they are uniquely qualified to conduct and fulfill the national requirements and focus of this program announcement. The CDD accomplishes its mission by disseminating information on chronic disease program needs and services, as well as recommending and promoting improved policies and programs. The CDD also provides consultation and guidance to states in the establishment of statewide systems of coordinated population-based preventions. All of these activities are accomplished through cooperation and collaboration with national, state, and local partners in the public and private sectors.

Through the work conducted under this Program Announcement, CDC will be in a position to promote and foster an even greater collaboration with public and private health care providers and state prevention programs.

C. Funding

Approximately \$2,200,000 is available in FY 2004 to fund this award. It is expected that the award will begin on or before September 1, 2004, and will be made for a 12-month budget period within a project period of up to 5 years. Funding estimates may change.

D. Where To Obtain Additional Information

For general comments or questions about this announcement, contact: Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, telephone: 770-488-2700.

For technical questions about this program, contact: John M. Korn, Project Officer, Division of Adult and Community Health, National Center for Chronic Disease Prevention and Health Promotion, 4770 Buford Highway, NE., MS K30, Atlanta, GA 30341, telephone: 770-488-5427, e-mail: JMK3@cdc.gov.

Dated: July 2, 2004.

Alan Kotch,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.
