

with all applicable Federal motor vehicle safety standards, including those for which dynamic crash testing is prescribed.

By submitting the petition at issue, AAS is requesting that NHTSA reevaluate this policy for an RHD vehicle that is manufactured in the same plant, and on the same assembly line, as its U.S.-certified counterpart. In processing this petition, we have decided that a comment period of 45 days is necessary to afford interested parties an opportunity to respond to the issues that it raises. We are particularly interested in comments concerning the likelihood that the RHD vehicle at issue, which is assembled on the same assembly line as its U.S.-certified LHD counterpart, would, by virtue of that fact, perform the same as the U.S.-certified vehicle in dynamic crash tests as well as crash avoidance tests.

Comments should refer to the docket number and be submitted to: Docket Management, Room PL-401, 400 Seventh St., SW., Washington, DC 20590. (Docket hours are from 9 a.m. to 5 p.m.) It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.
