*Title:* ACF/HHS Supporting Healthy Marriage (SHM) Evaluation Focus Groups.

*OMB No.:* New Collection.

*Description:* The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is conducting a demonstration and evaluation called the Supporting Healthy Marriage (SHM) Project. The project is a large-scale, multi-site, multi-year, rigorous test of marriage education programs for interested low-income married couples, and is based on a substantial body of research that has shown a relationship between healthy marriages and a variety of positive child and family outcomes. The SHM Project is designed to inform program operators and policymakers of the most effective ways to help couples who voluntarily choose to participate in demonstrations designed to strengthen and maintain healthy marriages. The focus groups will provide key

information about the perspectives of low-to-moderate-income couples regarding marriage, relationships, and marriage education programs; assist ACF and program managers in designing responsive healthy marriage programs; and will help to ensure that the project is testing the strongest possible program models for its target populations.

*Respondents:* The respondents will be selected to represent low-to-moderate income couples in each of the following categories, whose views can help us to design effective SHM programs: Married couples and those planning to marry, couples with and without children, and couples who have had experience with marriage education programs as well as those who have not. There will also be an effort to include African American and Hispanic couples. Focus groups will be divided into separate discussions for those who are married and for those who are planning to marry. Each of these focus groups will be further separated into discussions for couples, for men only, and for women only. Each focus group will have approximately 10 respondents for a total of 180 respondents over 2 years (approximately 12 focus groups will take place in the first year and 6 focus groups in the second). Total burden hours are listed in the table that follows.

*Title:* Child Care and Development Fund Annual Financial Report for Tribes (ACF-696T).

OMB No.: 0970-0195.

*Description:* The Child Care and Development Fund (CCDF) annual financial reporting form (ACF-696T) provides a mechanism for Indian Tribes to report expenditures under the CCDF program. The CCDF program provides funds to Tribes, as well as States and Territories, to assist low-income families in obtaining child care so that they can work or attend training/education, and to improve the quality of care. Information collected via the ACF-696T allows the Administration for Children and Families (ACF) to monitor tribal expenditures and to estimate outlays and may be used to prepare ACF budget submissions to Congress. This information collection uses the existing ACF-696T form, without any changes. Office of Management and Budget (OMB) approval for the existing form expires on March 31, 2005.

*Respondents:* Indian Tribes and Tribal Organizations that are CCDF grantees.
