SUPPLEMENTARY INFORMATION:**History**

Federal Register document 04-23387, published on Tuesday, October 19, 2004 (69 FR 61439), modified the Class E airspace area designated as a surface area and the Class E airspace area extending upward from 700 feet above the surface at Dodge City, KS. The modification corrected discrepancies in the Dodge City Regional Airport reference point (ARP) used in the legal descriptions, corrected the airspace dimensions to protect for diverse departures, established an extension to the airspace area extending upward from 700 feet above the surface and brought the legal descriptions of the Dodge City, KS Class E airspace areas into compliance with FAA Orders 7400.2E, Procedures for Handling Airspace Matters, and 8260.19C, Flight Procedures and Airspace. However, the Dodge City Regional Airport ARP has since been recomputed requiring a further revision to the Dodge City, KS Class E airspace areas.
