

DEPARTMENT OF THE TREASURY**Financial Crimes Enforcement Network****Proposed Collection; Comment Request; Money Services Business Survey**

AGENCY: Financial Crimes Enforcement Network ("FinCEN"), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, Financial Crimes Enforcement Network ("FinCEN"), requires current information regarding the size, extent, income derived by and nature of the Money Services Business ("MSB") industry to more effectively regulate and inform MSBs about Bank Secrecy Act regulations that include requiring MSBs to register with FinCEN and to file Suspicious Activity Reports. FinCEN places a high priority on effective and broad-reaching initiatives to facilitate the education of MSBs and their agents in their responsibilities under the Bank Secrecy Act. FinCEN proposes to conduct a survey that is intended to provide data that can be used to update the 1997 Coopers & Lybrand study of the MSB industry to determine the current profile or make up of this industry and to include issuers, sellers and redeemers of stored value (which were not included in the 1997 Coopers & Lybrand study). The survey will consist of questions that will enable the contractor to provide a statistical estimate of the size and other business characteristics for the following 5 MSB industry sectors: (1) Check cashers, (2) currency dealers or exchangers (limited to those that exchange or deal in actual legal tender such as bank notes and coins), (3) issuers of money orders, traveler's checks or stored value, (4) sellers or redeemers of money orders, traveler's checks or stored value, and (5) money transmitters. Other goals of this study are: To identify the extent to which such financial services, which are not their primary business, are currently being offered through businesses, and to identify the percentage of income generated by these financial services activities; to determine how many of each of these MSBs are currently within the United States as well as their geographical distribution; to analyze, by state or other geographic grouping, and by type of business, differences in the number of MSBs currently registered as compared to the number, size and geographic distribution of the MSB industry segments identified in the study; to determine the extent to which MSBs are

predominantly or primarily engaged in providing financial services as opposed to those in which these services are ancillary to their chief purposes as convenience or other retail stores. This request for comments is being made pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13, 44 U.S.C. 3506(c)(2)(A).
