DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 020105N]

Proposed Information Collection; Comment Request; Atlantic Highly Migratory Species Observer Notification Requirements

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 8, 2005.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Chris Rilling, National Marine Fisheries Service (NMFS), Highly Migratory Species Management Division, 1315 East-West Highway,

Silver Spring, MD 20910 (phone 301-713-2347).

SUPPLEMENTARY INFORMATION:

I. Abstract

Under current regulations NMFS may select for observer coverage any fishing trip by a vessel that has a permit for Atlantic Highly Migratory Species (HMS). NMFS notifies vessel owners, in writing, when their vessels have been selected. The owners of those vessels are then required to notify NMFS before commencing any fishing trip for Atlantic HMS. This notification allows NMFS to arrange for observer placements and assignments. The notification may be made by phone, fax, or in writing prior to each trip for which a vessel is selected. A form is provided by NMFS for written responses. It is estimated that it would require approximately two minutes to provide the response. The estimated number of responses exceeds the number of respondents due to multiple trips taken within a particular season.

The vessels are selected randomly from a list of active vessels that have reported landings of targeted species during the previous year. Observers are placed aboard vessels to collect, among other things, information on species caught, catch disposition, gear, effort, and bycatch. The information is used in stock assessments, to estimate rates of bycatch of non-targeted and protected species such as sea turtles, and to improve overall management of the fishery. A Biological Opinion (BiOp) issued on June 1, 2004, under the Endangered Species Act, requires a minimum of eight percent observer coverage in the pelagic longline fishery. The shark bottom longline observer program has set a target of five percent observer coverage in the shark bottom longline fishery. A BiOp issued in October 2003, requires NMFS to maintain or increase this level of observer coverage. Observer coverage for the shark gillnet fishery fluctuates from approximately 50 percent to 100 percent, depending on the time of year. Vessels operating in other HMS fisheries are not observed currently but are subject to observer coverage under the regulations. Burden estimates include a ten percent adjustment upward from current levels to account for future expansion of other fisheries.

II. Method of Collection

Notification can be made by phone, fax, or letter.

III. Data

OMB Number: 0648-0374.

Form Number: None.

Type of Review: Regular submission.
Affected Public: Business or other for-profit organizations (vessel owners).
Estimated Number of Respondents: 471.

Estimated Time Per Response: 2 minutes.

Estimated Total Annual Burden Hours: 513.

Estimated Total Annual Cost to Public: \$7,780.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 28, 2005.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 020205A]

Proposed Information Collection; Comment Request; Deep Seabed Mining Regulations for Exploration Licenses

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 8, 2005.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Helen Bass at (301)713-3155, ext. 175 (or via Internet at helen.bass@noaa.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

NOAA's regulations at 15 CFR 970 govern the issuing and monitoring of exploration licenses under the Deep Seabed Hard Mineral Resources Act. Persons seeking a license must submit certain information that allows NOAA to ensure the applicant meets the standards of the Act. Persons with licenses are required to conduct monitoring and reports, and they may request revisions to or transfers of licenses.

II. Method of Collection

Paper submissions are used, however applicants are encouraged to submit supporting documentation electronically when feasible.

III. Data

OMB Number: 0648-0145.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 2.

Estimated Time Per Response: 2,000-4,000 hours per application (no applications are expected) and 20 hours per report.

Estimated Total Annual Burden Hours: 40.

Estimated Total Annual Cost to Public: \$150.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information

on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 28, 2005.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 020205B]

Proposed Information Collection; Comment Request; Highly Migratory Species Vessel Logbooks and Cost-Earnings Data Reports

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed and continuing information collection, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 8, 2005.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue NW, Washington DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Joseph Desfosse, Highly Migratory Species Management Division (F/SF1), Office of Sustainable Fisheries, NMFS, 1315 East-West Highway, Silver Spring, MD 20910 (phone 301-713-2347).

SUPPLEMENTARY INFORMATION:

I. Abstract

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), the National

Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. In addition, NMFS must comply with the United States' obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 et seq.). NMFS collects information via vessel logbooks to monitor the U.S. catch of Atlantic swordfish, sharks, marlins, and tunas in relation to the quotas, thereby ensuring that the United States complies with its domestic and international obligations. The information supplied through vessel logbooks also provides the catch and effort data necessary to assess the status of highly migratory species and to evaluate bycatch in each fishery. International stock assessments for tunas, swordfish, marlins, and some species of sharks are conducted and presented to the International Commission for the Conservation of Atlantic Tunas (ICCAT) periodically and provide, in part, the basis for ICCAT management recommendations which become binding on member nations. Domestic stock assessments for most species of sharks are used as the basis of managing these species.

Supplementary information on fishing costs and earnings has been collected via this vessel logbook program. This economic information enables NMFS to assess the economic impacts of regulatory programs on small businesses and fishing communities, consistent with NEPA, Executive Order 12866, the Regulatory Flexibility Act, and other domestic law.

II. Method of Collection

Currently, log books are being completed and submitted in paper form.

III. Data

OMB Number: 0648-0371.

Form Number: NOAA Form 88-191.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations (vessel owners).

Estimated Number of Respondents: 7,635.

Estimated Time Per Response: 10 minutes for cost/earnings summaries attached to logbook reports; 12 minutes for logbook catch reports; and 2 minutes for negative logbook catch reports.

Estimated Total Annual Burden Hours: 30,378.

Estimated Total Annual Cost to Public: \$0 (no capital expenditures required).

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information
