DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[COTP San Francisco Bay 05-004]

RIN 1625-AA87

Security Zones; Monterey Bay and Humboldt Bay, CA

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing moving and fixed security zones extending 100 yards in the U.S. navigable waters around and under all cruise ships, tank vessels, and High Interest Vessels (HIVs) that enter, are moored in, anchored in, or depart from the designated waters of Monterey Bay or Humboldt Bay, California. These security zones are needed for national security reasons to protect the public and ports of Monterey Bay and Humboldt Bay from potential subversive acts. Entry into these security zones is

prohibited, unless specifically authorized by the Captain of the Port San Francisco Bay, or his designated representative.

DATES: This rule is effective from 4 p.m. on March 23, 2005 to 12:01 a.m. on May 11, 2005.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket [COTP San Francisco Bay 05-004] and are available for inspection or copying at the Waterways Management Branch between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Doug Ebberts, Waterways Management Branch, U.S. Coast Guard Marine Safety Office San Francisco Bay, (510) 437-2770.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(3)(B), the Coast Guard finds that good cause exists for not publishing an NPRM because the threat of a terrorist attack against cruise ships, tank vessels, and HIVs currently exists and is ongoing.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. The measures contemplated by this rule are intended to prevent terrorist attacks against individuals and facilities within or adjacent to cruise ships, tank vessels, and HIVs located in Monterey Bay and Humboldt Bay. Any delay in the effective date of this TFR would be contrary to the public interest and would unnecessarily expose cruise ships, tank vessels, and HIVs to potential terrorist attacks.

Background and Purpose

Since the September 11, 2001 terrorist attacks on the World Trade Center in New York, the Pentagon in Arlington, Virginia and Flight 93, the Federal Bureau of Investigation (FBI) has issued several warnings concerning the potential for additional terrorist attacks within the United States. In addition, the ongoing hostilities in Afghanistan and Iraq have made it prudent for U.S. ports to be on a higher state of alert because the Al-Qaeda organization and other similar organizations have declared an ongoing intention to conduct armed attacks on U.S. interests worldwide.

In its effort to thwart terrorist activity, the Coast Guard has increased safety and security measures on U.S. ports and waterways. As part of the Diplomatic

Security and Antiterrorism Act of 1986 (Pub. L. 99-399), Congress amended section 7 of the Ports and Waterways Safety Act (PWSA), 33 U.S.C. 1226, to allow the Coast Guard to take actions, including the establishment of security and safety zones, to prevent or respond to acts of terrorism against individuals, vessels, or public or commercial structures. The Coast Guard also has authority to establish security zones pursuant to the Act of June 15, 1917, as amended by the Magnuson Act of August 9, 1950 (50 U.S.C. 191 *et seq.*) and implementing regulations promulgated by the President in subparts 6.01 and 6.04 of part 6 of title 33 of the Code of Federal Regulations.

In this particular rulemaking, to address the aforementioned security concerns, and to take steps to prevent the catastrophic impact that a terrorist attack against a cruise ship, tank vessel, or HIV would have on the public interest, the Coast Guard is establishing security zones around and under cruise ships, tank vessels, and HIVs entering, departing, moored or anchored within designated waters of Monterey Bay and Humboldt Bay, California. These security zones help the Coast Guard to prevent vessels or persons from engaging in terrorist actions against these types of vessels. Due to these heightened security concerns, and the catastrophic impact a terrorist attack on a cruise ship, tank vessel, or HIV would have on the crew and passengers on board, and the surrounding area and communities, security zones are prudent for these types of vessels.

Discussion of Rule

On December 31, 2002, we published the final rule [COTP San Francisco Bay 02-019] adding § 165.1183, "Security Zones; Cruise Ships and Tank Vessels, San Francisco Bay and Delta ports, California" in the **Federal Register** (67 FR 79854). That section set forth security zones for cruise ships and tank vessels in San Francisco Bay and delta ports. A subsequent final rule [COTP San Francisco Bay 03-002] published in the **Federal Register** (69 FR 8817) on February 26, 2004, amended section 165.1183 to include HIVs as protected vessels in that section, along with cruise ships and tank vessels. Neither of these final rules addressed security zones around cruise ships, tank vessels, or HIVs located in Monterey Bay or Humboldt Bay, California.

In addition, we published a notice of proposed rulemaking (NPRM) in the **Federal Register** (69 FR 56011) on September 17, 2004, that proposed to make permanent these temporary security zones around cruise ships, tank
