[Investigations Nos. 701-TA-297 and 731-TA-422 (Second Review)]

Steel Rails From Canada

AGENCY: International Trade Commission.

ACTION: Termination of five-year reviews.

SUMMARY: The subject five-year reviews were initiated in January 2005 to determine whether revocation of the countervailing duty and antidumping duty orders on steel rails from Canada would be likely to lead to continuation or recurrence of material injury to a domestic industry. On April 11, 2005, the Department of Commerce published notice that it was revoking the orders effective February 9, 2005 because "no domestic interested party responded to the sunset review notice of initiation by the applicable deadline" (70 FR 18361). Accordingly, pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)), the subject reviews are terminated.

EFFECTIVE DATE: February 9, 2005.

[Investigation No. Morocco FTA-103-11]

Effect of Modifications to the U.S.-Morocco Free Trade Agreement

AGENCY: United States International Trade Commission.

ACTION: Institution of investigation and request for written submissions.

EFFECTIVE DATE: April 15, 2005.

Background: On August 17, 2004, the President signed the United States-Morocco Free Trade Agreement Implementation Act (the Act). The Act approved the Agreement and authorized the President to proclaim the tariff and other customs treatment set forth therein. As required by section 2104(f) of the Trade Act of 2002, the Commission submitted its advice

concerning the likely impact of the Agreement in June 2004.

According to USTR, the United States and Morocco ("the Parties") drafted the Agreement based on the assumption that it would enter into force at the beginning of a calendar year, and the date on which the Agreement was to enter into force was January 1, 2005. Due to subsequent events, the Parties agreed that the date of entry into force of the Agreement should be delayed until July 1, 2005. Accordingly, the Parties agreed to amend the Agreement so that the first stage of negotiated tariff reductions and related measures will become effective on that date, with the second stage starting on January 1, 2006. In addition, the Parties agreed to amend the Agreement so that the in-quota quantities of the tariff-rate quotas for agricultural and apparel goods and the quantities of textile and apparel goods that receive preferential tariff treatment, as set out in the Agreement, be reduced by fifty percent for the period July 1, 2005 through December 31, 2005, after which the previously agreed treatment would be accorded.

According to USTR, the Parties will exchange letters to modify the Agreement as specified in the preceding paragraph in order to effect a date of entry into force of July 1, 2005; no other amendments to the Agreement will be made.

Section 201 of the Act authorizes the President, subject to the consultation and layover requirements of section 104 of the Act, to proclaim such tariff modifications and other customs treatment as are necessary to carry out or apply specified provisions of the Agreement with Morocco. One of the requirements set out in section 104 of the Act is that the President obtain advice from the United States International Trade Commission.

USTR asked that the Commission provide advice on the probable effect of the modifications to the Agreement described above, with a view toward identifying any changes in the Commission's previous advice concerning the impact of the Agreement.

As requested, the Commission will submit its advice to USTR by April 28, 2005, and shortly thereafter issue a public version of the report with any confidential business information deleted.

The Commission has styled this as a section 103 investigation to make it part of a series of reports, generally submitted under section 103 of the U.S. implementing legislation for a free trade agreement (e.g., section 103 of the
