

self-certification as to the number of persons in the household. **Note:** Pursuant to OMB guidance, we emphasize that while carriers are allowed to ask for information to verify eligibility, they are not allowed to keep records of the actual information contained in the documents that are presented to them. Rather, carriers may only keep a record that the appropriate documentation was presented and reviewed at the point of eligibility determination. In those states that operate their own Lifeline/Link-Up program, states must devise a procedure to ensure eligibility criteria are met and those ETCs must be able to document that they are complying with state regulations and recordkeeping requirements. This information collection is necessary to protect against fraud and abuse in the provision of services supported by the universal service mechanism.

In addition, the Commission plans to issue a voluntary survey to gather data and information from states regarding the administration of Lifeline/Link-Up programs upon OMB approval. This information collection is necessary to enable the Commission to make more informed decisions in any future Lifeline/Link-Up orders.
