

per bale. The formula in the Act provides for the use of the percentage change in the implicit price deflator of the gross national product (as indexed for the most recent 12-month period for which statistics are available). However, gross *national* product has been replaced by gross *domestic* product by the Department of Commerce as a more appropriate measure for the short-term monitoring and analysis of the U.S. economy.

The number of bales to be classed by the United States Department of Agriculture from the 2005 crop is estimated at 18,096,563 bales. The 2005 base fee was decreased 15 percent based on the estimated number of bales to be classed (1 percent for every 100,000 bales or portion thereof above the base of 12,500,000, limited to a maximum decreased adjustment of 15 percent). This percentage factor amounts to a 35 cents per bale reduction and was subtracted from the 2005 base fee of \$2.37 per bale, resulting in a fee of \$2.02 per bale.

With a fee of \$2.02 per bale, the projected operating reserve would be 32.45 percent. The Act specifies that the Secretary shall not establish a fee which, when combined with other sources of revenue, will result in a projected operating reserve of more than 25 percent. Accordingly, the fee of \$2.02 was required to be reduced by 17 cents per bale, to \$1.85 per bale, to provide an ending accumulated operating reserve for the fiscal year of not more than 25 percent of the projected cost of operating the program. This would establish the 2005 season fee at \$1.85 per bale.

Accordingly, § 28.909, paragraph (b) is revised to reflect the increase of the HVI classification fee from \$1.65 to \$1.85 per bale.

As provided for in the Uniform Cotton Classing Fees Act of 1987, as amended, a 5 cent per bale discount would continue to be applied to voluntary centralized billing and collecting agents as specified in § 28.909(c).

Growers or their designated agents receiving classification data would continue to incur no additional fees if classification data is requested only once. The fee for each additional retrieval of classification data in § 28.910 will remain at 5 cents per bale. The fee in § 28.910(b) for an owner receiving classification data from the National database will remain at 5 cents per bale, and the minimum charge of \$5.00 for services provided per monthly billing period will remain the same. The provisions of § 28.910(c) concerning the fee for new classification memoranda issued from the National database for

the business convenience of an owner without reclassification of the cotton will remain the same at 15 cents per bale or a minimum of \$5.00 per sheet.

The fee for review classification in § 28.911 will be increased from \$1.65 to \$1.85 per bale.

The fee for returning samples after classification in § 28.911 will remain at 40 cents per sample.
