Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, U.S. Department of Homeland Security.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) has submitted the following information collection to the Office of Management and Budget (OMB) for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). Title: Fire Management Assistance Grant Program.

OMB Number: 1660-0058.

Abstract: The collection of information is used by both State and FEMA Regional staff to facilitate the declaration request and grant administration processes of FMAGP, as well as end of year internal reporting of overall declaration requests and

estimated grant outlays. The following information collections are used:

FEMA-State Agreement and Amendment. Federal assistance under Section 420 of the Stafford Act must be provided in accordance with the FEMA-State Agreement for FMAGP. The State Governor and the Regional Director must sign the Agreement, which contains the necessary terms and conditions consistent with the provisions of applicable laws, executive orders, and regulations, and specifies the type and extent of Federal assistance to be provided. The Agreement is an annual agreement applicable only for the calendar year in which it is signed.

Amendments to the FEMA-State Agreement may be executed throughout the calendar year as necessary. One amendment, Exhibit E, must be completed upon each approval of a fire management assistance declaration. Exhibit E confirms the name, incident period, location, and official designation number of the fire. Other amendments modifying the standing agreement may be added throughout the year to reflect changes in the program or signatory parties.

FEMA Form 90-133, Request for Fire Management Assistance Subgrant, is used by State, local and tribal governments to state their interest in applying for sub-grants under a approved fire management assistance grant. The form provides essential subgrantee contact information.

FEMA Form 90-58, Request for Fire Management Assistance Declaration, is used by the State to provide information in support of its request for a fire management assistance declaration. This form must be completed by the Governor or Governor's Authorized Representative (GAR) and forwarded to FEMA's Regional Director for review and transmittal to FEMA's National Office in Washington DC. Additional

supporting information may be furnished by the State or requested by FEMA after the initial request has been received.

FEMA Form 90-32, Principal Advisor's Report, form is used to provide FEMA with technical assessment of a fire or fire complex for which the State is requesting a fire management assistance declaration. FEMA will review all information submitted in the State's request along with the Principal Advisor's assessment and Regional summary and will render a determination.

A State Administrative Plan for FMAGP must be developed by the State for the administration of fire management assistance grants. The plan must describe the procedures for the administration of FMAGP, designate the State agency to serve as Grantee, and ensure State compliance with the provisions of law and regulation applicable to fire management assistance grants. The plan must also identify staffing functions, the sources of staff to fill these functions, and the management and oversight responsibilities of each. The plan should describe the procedures to notify potential applicants of the availability of the program, assist FEMA in determining applicant eligibility, review PWs, process payment of subgrants, and audit and reconcile subgrants. The plan should also outline the processes to be used to facilitate close-out of the fire management assistance grant in accordance with 44 CFR part 13, subpart D. The Regional Director must ensure that the State has an up-to-date Administrative Plan or approve a new plan prior to approval of the SF 424. The State may request the Regional Director to provide technical assistance in the preparation of the State Administrative Plan.

Training sessions are provided primarily for Regional staff and State officials who administer FMAGP for the purpose of instructing and updating attendees on the laws, regulations, policies, and process that govern the program, as well as to discuss any program issues.

Appeals. When a State's request for a fire management assistance declaration is denied, the Governor of a State or GAR may appeal the decision in writing pursuant to 44 CFR 204.26. The State may submit this one-time request for reconsideration in writing, with additional information, to the Director, Recovery Division. The appeal must be submitted within 30 days of the date of the letter denying the State's/Indian tribal government's request. A time extension of 30 days may be granted by the Director if the Governor or GAR submits a written request for a time extension within the 30-day period. Similarly, applicants may appeal any cost or eligibility determination under an approved declaration within 60 days after receipt of the notice of the action that is being appealed. The request must be submitted in writing to FEMA through the Grantee in accordance with the appeal procedures detailed in 44 CFR 204.60. Appeals usually consist of a letter briefly describing the reason for the appeal and any new supporting documentation the State or applicant submits to FEMA for review.

Duplication of Benefits. Applicants are required to notify FEMA of all benefits, actual or anticipated, received from other sources for the same loss for which they are applying to FEMA for assistance. Notification can be accomplished in a letter, accompanied by supporting documentation.

Affected Public: State, local or tribal government and Federal government.
