DEPARTMENT OF EDUCATION

Privacy Act of 1974; System of Records—Evaluation of the Impact of Teacher Induction Programs

AGENCY: Institute of Education Sciences, Department of Education.

ACTION: Notice of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, as amended (Privacy Act), the Department of Education (Department) publishes this notice of a new system of records entitled Evaluation of the Impact of Teacher Induction Programs (18-13-11). Mathematica Policy Research, Inc., in collaboration with the Center for Educational Leadership, is conducting the Evaluation of the Impact of Teacher Induction Programs. The evaluation has been commissioned by the National Center for Education Evaluation and Regional Assistance at the Department's Institute of Education Sciences (IES).

The study will address the following questions:

(1) Do elementary school teachers who participate in a high-intensity program of induction have increased retention rates as compared to teachers who participate in the induction program that the school district normally offers?

(2) If the high-intensity program of induction support is more effective in retaining elementary school teachers, is the increase in teacher retention large enough to warrant the added cost of the program?

(3) For teachers who participate in the high-intensity program or the induction program that the school district normally offers, what are the characteristics of those who are retained versus those who leave the school, district, or profession?

(4) Does participation in a high-intensity induction program affect teacher practices, as compared to the practices of teachers who participate in the induction program that the district normally offers?

(5) Does participation in a high-intensity induction program result in increased student achievement?

The system of records will contain information about teachers participating in the evaluation. It will include, but is not limited to the following data: Names; social security numbers; home addresses; home phone numbers; cell phone numbers; e-mail addresses; race/ethnicity; age; income; marital status; household composition; home ownership; educational background and credentials; and ACT or SAT college examination scores.

DATES: The Department seeks comment on the new system of records described in this notice, in accordance with the requirements of the Privacy Act. We must receive your comments on the proposed routine uses for the system of records referenced in this notice on or before July 18, 2005. CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system contains records on teachers participating in the Evaluation of the Impact of Teacher Induction Programs. The goal of this evaluation is to evaluate the impact of a high intensity model of teacher induction on novice elementary school teachers' retention rates and classroom performance. Twenty high-poverty school districts will participate in the evaluation. Selected districts will be those that do not already offer a high intensity induction program and that agree to assign 20 elementary schools within the district by lottery to either the high intensity model of teacher induction or the teacher induction program that the district normally provides. Teachers' participation in the evaluation will be voluntary.

CATEGORIES OF RECORDS IN THE SYSTEM:

This system consists of a baseline teacher survey (which will cover the teacher's professional credentials, the teacher's perceptions of the teaching profession, and the teacher's personal background characteristics, many of which may affect retention), the teacher's college SAT or ACT examination results, a classroom observation protocol, a teacher induction activities survey (which will ask questions about the kinds of induction activities in which the novice teacher participated, as well as the intensity and duration of those activities), a teacher retention survey (items will include the teacher's place of employment, pursuit of continuing education, the timing of any change in the teacher's employment, the teacher's job satisfaction, and, if applicable, the reasons that the teacher left an original school or the teaching profession), and aggregated student test score data which will be linked to the teacher.

Information on study participants in this system will include, but not be limited to the following data: Names; home addresses; home phone numbers; cell phone numbers; e-mail addresses; social security numbers; race/ethnicity; age; income; marital status; household composition; home ownership; educational background and credentials; and ACT or SAT college examination results.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The evaluation being conducted is authorized under: (1) sections 171(b) and 173 of the Education Sciences Reform Act of 2002 (ESRA) (20 U.S.C. 9561(b) and 9563); and (2) section 9601 of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the No Child Left Behind Act of 2001 (NCLB) (20 U.S.C. 7941). The authority for the underlying teacher induction programs, the impact of which the Department of Education (Department) is evaluating, is sections 2121 through 2123 of the ESEA, as amended by NCLB (20 U.S.C. 6621-6623).

PURPOSE(S):

The information in this system is used for the following purposes: (1) To fulfill the requirements of the ESEA, as amended by the NCLB, for evaluation and research of teacher quality; and (2) to provide information on the effectiveness of teacher induction programs in increasing teacher retention and improving teacher performance.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

The Department may disclose information contained in a record in this system of records under the routine uses listed in this system of records without the consent of the individual if the disclosure is compatible with the purposes for which the record was collected. These disclosures may be made on a case-by-case basis or, if the Department has complied with the computer matching requirements of the Act, under a computer matching agreement. Any disclosure of individually identifiable information from a record in this system must also comply with the requirements of section 183 of the ESRA (20 U.S.C. 9573) providing for confidentiality standards that apply to all collections, reporting and publication of data by IES.

(1) *Contract Disclosure.* If the Department contracts with an entity for the purposes of performing any function that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees. Before entering into such a contract, the Department shall require the contractor to maintain Privacy Act safeguards as required under 5 U.S.C. 552a(m) with respect to the records in the system.

(2) *Research Disclosure.* The Department may disclose records to a researcher if an appropriate official of the Department determines that the individual or organization to which the disclosure would be made is qualified to carry out specific research related to functions or purposes of this system of records. The official may disclose records from this system of records to that researcher solely for the purpose of carrying out that research related to the functions or purposes of this system of records. The researcher shall be required to maintain Privacy Act safeguards with respect to the disclosed records.

(3) *Freedom of Information Act (FOIA) Advice Disclosure.* The Department may disclose records to the U.S. Department of Justice and the Office of Management and Budget if the Department concludes that disclosure is desirable or necessary in determining whether particular records are required to be disclosed under the FOIA.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

The Department maintains records on CD-ROM and the contractor maintains data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed by a number assigned to each individual that is cross referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department's site and to the site of the Department's contractor, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need to know" basis, and controls individual users' ability to access and alter records within the system.

The contractor, Mathematica Policy Research, Inc. (MPR), has established a set of procedures to ensure confidentiality of data. The system ensures that information identifying individuals is in files physically separated from other research data. MPR will maintain security of the complete set of all master data files and documentation. Access to individually identifiable data will be strictly controlled. All data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include password-protected accounts that authorize users to use the MPR system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; e-mail passwords that authorize the user to access mail services; and additional security features that the network administrator establishes for projects as needed. MPR shall comply with the requirements of the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules (ED/
