

A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section of this notice on or before August 23, 2005.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, telephone number 202-691-7628. (This is not a toll free number.)

FOR FURTHER INFORMATION CONTACT: Amy A. Hobby, BLS Clearance Officer, telephone number 202-691-7628. (See Addresses section.)

SUPPLEMENTARY INFORMATION:

I. Background

The CPS Displaced Worker, Job Tenure, and Occupational Mobility Supplement is conducted biennially and was last collected in January 2004.

This supplement will gather information on workers who have lost or left their jobs because their plant or company closed or moved, there was insufficient work for them to do, or their position or shift was abolished. Data will be collected on the extent to which displaced workers received advance notice of job cutbacks or the closing of their plant or business. For those workers who have been reemployed, the supplement will gather data on the types of jobs they found and will compare current earnings with those from the lost job.

The incidence and nature of occupational changes in the preceding year will be queried. The survey also probes for the length of time workers (including those who have not been displaced) have been with their current employer. Additional data to be collected include information on the receipt of unemployment compensation, the loss of health insurance coverage, and the length of time spent without a job.

Because this supplement is part of the CPS, the same detailed demographic information collected in the CPS will be available on respondents to the supplement. Comparisons will be possible across characteristics such as sex, race, age, and educational attainment of the respondent.

The information collected by this survey will be used to determine the size and nature of the population affected by job displacements and the needs and scope of programs serving

adult displaced workers. It also will be used to assess employment stability by determining the length of time workers have been with their current employer and estimating the incidence of occupational change over the course of a year. Combining the questions on displacement, job tenure, and occupational mobility will enable analysts to obtain a more complete picture of employment stability.

II. Current Action

Office of Management and Budget clearance is being sought for the CPS Displaced Worker, Job Tenure, and Occupational Mobility Supplement to the CPS.

Type of Review: Reinstatement, without change, of a previously approved collection for which approval has expired.

Agency: Bureau of Labor Statistics.

Title: CPS Displaced Worker, Job Tenure, and Occupational Mobility Supplement.

OMB Number: 1220-0104.

Affected Public: Households.

Total Respondents: 55,000.

Frequency: Monthly.

Total Responses: 55,000.

Average Time Per Response: 8 minutes.

Estimated Total Burden Hours: 7,333 hours.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 - Enhance the quality, utility, and clarity of the information to be collected; and
 - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Comments submitted in response to this notice will be summarized and/or

included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 16th day of June, 2005.

Cathy Kazanowski,

*Chief, Division of Management Systems,
Bureau of Labor Statistics.*

BILLING CODE 4510-24-P

**NATIONAL AERONAUTICS AND
SPACE ADMINISTRATION**

[Notice 05-106]

**NASA Advisory Council, Planetary
Protection Advisory Committee;
Meeting**

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council (NAC), Planetary Protection Advisory Committee (PPAC).

DATES: Tuesday, July 26, 2005, 8:30 a.m. to 5:30 p.m., and Wednesday, July 27, 2005, 8:30 a.m. to 4:30 p.m.

ADDRESSES: University of Maryland Inn and Conference Center, 3501 University Boulevard, East, Adelphi, MD 20783.

FOR FURTHER INFORMATION CONTACT: Ms. Marian Norris, Science Mission Directorate, National Aeronautics and Space Administration, Washington, DC 20546, (202) 358-4452, e-mail mnorris@nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. The agenda for the meeting includes the following topics:

- Planetary Protection Program Update
- Solar System Exploration Overview
- Mars Forward Contamination Requirements
- Mars Mission Implementation Status
- Mars Sample Return Mission, Planning, and Status
- Future Outer Planet Missions
- Planning for Future Human Missions to the Moon and Mars

Attendees will be requested to sign a register. It is imperative that the meeting be held on these dates to accommodate

the scheduling priorities of the key participants.

P. Diane Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE 7510-13-P

**NATIONAL AERONAUTICS AND
SPACE ADMINISTRATION**

[Notice 05-107]

Return to Flight Task Group; Meeting

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a meeting of the Return to Flight Task Group (RTF TG).

DATES: Monday June 27, 2005, from 1 p.m. until 3 p.m. eastern daylight time.

ADDRESSES: Residence Inn Capitol, 333 E Street SW., Washington DC 20024. The meeting will be held in the Capitol Room.

FOR FURTHER INFORMATION CONTACT: Mr. Vincent D. Watkins at (281) 792-7523.

Rationale for Exception to Less Than 15 Day Notice: This event is directly related to scheduling constraints imposed by the nation's Space Shuttle Program return to flight launch activities. Critical data necessary for the Task Group to complete its assessment was made available based on necessary milestones required for the agency to ensure a safe return to flight. The proximity of those milestones to the new STS-114 launch date prevents the Task Group from scheduling its last public meeting within the 15 day notice requirement.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the meeting room. Attendees will be requested to sign a register. Audio of the meeting will be distributed via the Internet at <http://returntoflight.org>.

The agenda for the meeting is as follows:

- Welcome remarks from Co-Chair
- Discussion of status of NASA's implementation of selected Columbia Accident Investigation Board return to flight recommendations
- Action item summary from Executive Secretary
- Closing remarks from Co-Chair

It is imperative that the meeting be held on this date to accommodate the

scheduling priorities of the key participants.

P. Diane Rausch,

*Advisory Committee Management Officer,
National Aeronautics and Space
Administration.*

BILLING CODE 7510-13-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

AGENCY: National Science Foundation.

ACTION: Notice of permit applications received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by July 25, 2005. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT:

Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

The applications received are as follows:

Permit Application No. 2006-015

1. *Applicant:* Shane B. Kanatous, Southwestern Medical Center,

University of Texas, 5323 Harry Hines Boulevard, Dallas, TX 75390-8573.

Activity for Which Permit is Requested

Take and Import into the United States. The applicant proposes to capture up to 10 each of Weddell seal newborn pups, sub adults, and adults each season to be weighed and to collect muscle samples. The samples will be returned to the U.S. for further scientific study. The applicant plans to build on his previous work that characterized the enzymatic, and ultra-structural adaptations for diving that occur in the skeletal muscles of newly weaned, juvenile and adult Weddell seals. Study results will increase understanding of both the ontogeny and molecular mechanisms by which young seals acquire the physiological capabilities to make deep (up to 700 meters) and long aerobic dives (@ min.). The study will also advance knowledge of the molecular regulation for the adaptations that enable active skeletal muscle to function under hypoxic conditions, which has broader application for human medicine especially in regards to cardiac and pulmonary disease.

Location: McMurdo Sound sea ice.

Dates: October 1, 2005 to February 28, 2008.

Permit Application No. 2006-016

2. *Applicant:* Wayne Z. Trivelpiece, Antarctic Ecosystem Research Division, Southwest Fisheries Science Center, 8604 La Jolla Shores Drive, La Jolla, CA 92037.

Activity for Which Permit Is Requested

Take, Enter an Antarctic Specially Protected Area, and Import into the United States. The applicant is continuing a study of the behavioral and population biology of the Adelie, gentoo, and chinstrap penguins and the interactions of these species and their principal avian predators: skuas, gulls, sheathbills, and giant petrels. Up to 500 each of Adelie and gentoo penguin chicks and adults will be banded. Up to 50 adult penguins per species will have radio-transmitters (Tx's), satellite tags (PTTs), and time-depth recorders (TDRs) attached to continue the study of the penguins' foraging habits. Up to 40 adult penguins per species will have their stomachs pumped, and data will be collected on egg sizes and adult weights for a maximum of 100 nest per species. In addition, blood, tissue and uropigial gland oil will be collected for further study.

Location: Western Shore of Admiralty Bay, King George Island (ASPA #128) and Lion's Rump, King George Island (ASPA #151).
