SUPPLEMENTARY INFORMATION: On January 21, 2004, notice was published in the **Federal Register** (69 FR 2902) that a request for a scientific research permit to take marine mammals had been submitted by the above-named individual. The requested permit has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Permit No. 909-1726-00 authorizes the Holder to biopsy sample and collect naturally sloughed skin from sperm whales (*Physeter macrocephalus*) and a variety of other non-listed cetacean species in the Gulf of Mexico, North Atlantic Ocean, Caribbean Sea, and Mediterranean Sea. The goal is the continuation of a previous four-year study that analyzes population genetic structure between the Gulf of Mexico, Caribbean Sea, North Atlantic Ocean, and Mediterranean Sea and provides a comparison of these putative geographic populations with those of other geographic areas. Samples would be obtained via biopsy dart, opportunistically collected sloughed skin, as well using extant samples of stored material obtained from NMFS Southeast and Northeast regional stranding networks. Samples will be imported/exported to research facilities in the United Kingdom, New Zealand, Canada, and the United States for genetic sample processing.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment was prepared analyzing the effects of the permitted activities. After a Finding of No Significant Impact, the determination was made that it was not necessary to prepare an environmental impact statement.

Issuance of this permit, as required by the ESA was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: July 11, 2005.

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

Evaluation of State Coastal Management Programs and National Estuarine Research Reserves

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Office of Ocean and Coastal Resource Management, National Ocean Service, Commerce.

ACTION: Notice of intent to evaluate and notice of availability of final findings.

SUMMARY: The NOAA Office of Ocean and Coastal Resource Management (OCRM) announces its intent to evaluate the performance of the Tijuana River National Estuarine Research Reserve.

The National Estuarine Research Reserve evaluation will be conducted pursuant to sections 312 and 315 of the Coastal Zone Management Act of 1972, as amended, (CZMA) and regulations at 15 CFR part 921, subpart E and part 923, subpart L. The CZMA requires continuing review of the performance of states with respect to coastal program implementation. Evaluation of a National Estuarine Research Reserve requires findings concerning the extent to which a state has met the national objectives, adhered to its Reserve final management plan approved by the Secretary of Commerce, and adhered to the terms of financial assistance awards funded under the CZMA.

The evaluation will include a site visit, consideration of public comments, and consultations with interested Federal, state and local agencies and members of the public. A public meeting will be held as part of the site visit.

Notice is hereby given of the date of the site visit for the listed evaluation, and the date, local time, and location of the public meeting during the site visit. The Tijuana River National Estuarine Research Reserve evaluation site visit will be held September 13-16, 2005. One public meeting will be held during the week. The public meeting will be held on Wednesday, September 14, 2005, at 7 p.m. at the Community Room, 825 Imperial Beach Boulevard, Imperial Beach, California.

Copies of a state's most recent performance reports, as well as OCRM's evaluation notification and supplemental request letters to the state, are available upon request from OCRM. Written comments from interested parties regarding this Program are encouraged and will be accepted until 15 days after the public meeting. Please direct written comments to Ralph Cantral, Chief, National Policy and Evaluation Division, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-West Highway, 10th Floor, N/ORM7, Silver Spring, Maryland 20910. When the evaluation is completed, OCRM will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings.

Notice is hereby given of the availability of the final evaluation findings for the Minnesota, Texas, and Alabama Coastal Management Programs (CMPs); and the Weeks Bay (Alabama), Narragansett Bay (Rhode Island), and Grand Bay (Mississippi) National Estuarine Research Reserves (NERRs). Sections 312 and 315 of the Coastal Zone Management Act of 1972 (CZMA), as amended, require a continuing review of the performance of coastal states with respect to approval of CMPs and the operation and management of NERRs.

The states of Minnesota, Texas, and Alabama were found to be implementing and enforcing their federally approved coastal management programs, addressing the national coastal management objectives identified in CZMA Section 303(2)(A)-(K), and adhering to the programmatic terms of their financial assistance awards. Weeks Bay (Alabama), Narragansett Bay (Rhode Island), and Grand Bay (Mississippi) NERRs were found to be adhering to programmatic requirements of the NERR System.

Copies of these final evaluation findings may be obtained upon written request from: Ralph Cantral, Chief, National Policy and Evaluation Division, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-West Highway, 10th Floor, N/ORM7, Silver Spring, Maryland 20910, or Ralph.Cantral@noaa.gov, (301) 713-3155, extension 118.

A. Purpose

Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 1517) (Fly America Act) requires that all Federal agencies and Government contractors and subcontractors use U.S.-flag air carriers for U.S. Government-financed international air transportation of personnel (and their personal effects) or property, to the extent that service by those carriers is available. It requires the Comptroller General of the United States, in the absence of satisfactory proof of the necessity for foreign-flag air transportation, to disallow expenditures from funds, appropriated or otherwise established for the account of the United States, for international air transportation secured aboard a foreign-flag air carrier if an U.S.-flag carrier is available to provide such services. In the event that the contractor selects a carrier other than an U.S.-flag air carrier for international air transportation, the contractor shall include a certification on vouchers involving such transportation. The contracting officer uses the information furnished in the certification to determine whether adequate justification exists for the contractor's use of other than an U.S.-flag air carrier.
