Oil, Gas, and Sulphur Operations and Leasing in the Outer Continental Shelf (OCS)—Cost Recovery

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Final rule; delay of effective date.

SUMMARY: MMS is delaying until January 1, 2006, the effective date of a rule that will implement fees to offset MMS's costs of providing certain services related to its mineral programs. This delay is necessary because of damage caused in the New Orleans area by Hurricane Katrina and subsequent flooding. The delay will provide relief to the government and the oil and gas industry as they recover from this disaster.

DATES: The effective date of the rule amending 30 CFR Parts 250 and 256 published at 70 FR 49871, August 25, 2005 is delayed until January 1, 2006.

FOR FURTHER INFORMATION CONTACT: Angela Mazzullo, Offshore Minerals Management (OMM) Budget Office at (703) 787-1691.

SUPPLEMENTARY INFORMATION: The rule published August 25, 2005, requires MMS to develop additional procedures that MMS will provide to the oil and gas industry in the form of a Notice to Lessees. The primary office responsible for developing those procedures, the MMS Gulf of Mexico Regional Office in

New Orleans, Louisiana, has been closed since Hurricane Katrina and the flooding that followed that disaster. Moreover, many of the lessees and operators subject to the rule are similarly engaged in the restoration of normal operations following Hurricane Katrina. Lessees and operators will be making changes in their own procedures to comply with the rule. Lessees and operators whose operations have been interrupted as a result of the hurricane may not be able to make these changes until normal operations resume. Accordingly, the Department of the Interior is postponing the effective date of the final rule until January 1, 2006.

Dated: September 20, 2005.

Rebecca W. Watson,

Assistant Secretary—Land and Minerals Management.

Provisions for Claiming the Benefit of a Provisional Application With a Non-English Specification and Other Miscellaneous Matters

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: The United States Patent and Trademark Office (Office) is amending the rules of practice to require that: A copy of the English translation of a foreign-language provisional application be filed in the provisional application if a nonprovisional application claims the benefit of the provisional application; a copy of documentary evidence supporting a claim of ownership be recorded in the Office's assignment records when an assignee takes action in a patent matter; and separate copies of a document be submitted to the Office for recording in the Office's assignment records, each accompanied by a cover sheet, if the document to be recorded includes an interest in, or a transaction involving, both patents and trademarks.

DATES: Effective November 25, 2005.

Applicability Date: The changes apply to any paper, application or reexamination proceeding filed in the Office on or after November 25, 2005. Further, if a nonprovisional patent

application claims the benefit of the filing date of a non-English provisional application, a translation of the provisional application and a statement that the translation was accurate required by 37 CFR 1.78(a)(5)(iv) will not be required to be filed in the provisional application, if the translation and statement were filed in the nonprovisional application before November 25, 2005.

Box 1450, Alexandria, VA 22313-1450.

SUPPLEMENTARY INFORMATION: This final rule revises the rules of practice in title 37 of the Code of Federal Regulations (CFR) pertaining to records related to signature, availability of patent application files, power of attorney, provisional applications, and assignments.

Discussion of Specific Rules

Section 1.4: Section 1.4(d)(2) is amended to delete “with a signature in permanent dark ink or its equivalent,” because dark ink applies to handwritten signatures, not S-signatures. Section 1.4(d)(2)(ii) is amended to move the word “only” in the second sentence thereof from immediately preceding the word “be” to immediately following the word “used” and to change “registered practitioner” to “patent practitioner (§ 1.32(a)(1)).” The term “patent practitioner” is defined in § 1.32(a).

Section 1.11: Section 1.11(a) is amended for clarity and to reflect the policy regarding availability to the public of papers in the files of applications that have been published. For example, § 1.11(a) is amended to remove “abandoned” before “published application.” Published applications are not physically available to the public to copy and inspect if the file is maintained in a paper file wrapper. If a published application is not maintained in paper, but is instead maintained in the image file wrapper (IFW) system, the application is made available for public inspection through the Patent Application Information Retrieval (PAIR) system pursuant to § 1.14(a)(1)(iii) and 1.14(b).
