SUPPLEMENTARY INFORMATION:**I. Extension of the Public Comment Period**

The proposed rule which is the subject of this notice was published in the **Federal Register** on August 22, 2005 (70 FR 49014). That notice requested public comment on the proposed amendments to the public health and environmental radiation protection standards for Yucca Mountain, Nevada (40 CFR part 197).

At that time, EPA announced a 60-day public comment period ending on October 21, 2005. However, the Agency has received formal requests from several stakeholders to extend the comment period to 180 days. EPA recognizes the high level of interest in the issue of Yucca Mountain and that the proposed rule addresses safety over unprecedented time frames. Furthermore, the Agency agrees that it is important to allow adequate time for public information to readily reach more rural areas, particularly in Nevada, which may be affected by decisions related to Yucca Mountain. In view of these factors, and in consideration of requests from the stakeholders, EPA is extending the comment period an additional 30 days to end on November 21, 2005. This will provide a full three months for the public to submit comments, as much time as EPA provided for the full Yucca Mountain standards issued in 2001, which covered a significantly wider array of issues.

II. Additional Public Hearing in Las Vegas, Nevada

EPA is also adding an additional day, October 6, 2006, for a public hearing in Las Vegas, to respond to concerns about schedule conflicts with religious holidays. Hearings for two days (October 4 and October 5) in Las Vegas were announced in a previous **Federal Register** notice published on September 14, 2005 (70 FR 54325-54327). That notice also announced hearings in
