

B. Discussion of Public Comments

1. General Comments on Proposed Fee Increase

One commenter said that the fee increase is inconsistent with the Congressional declaration of policy for programs under the Small Business Investment Act of 1958, including the SBG Program, to stimulate and improve the economy by establishing assistance programs for small business which are to be "carried out in such a manner as to insure maximum participation of private financing sources," 15 U.S.C. 661 (Section 661). The commenter said that the fee increase would discourage surety companies from participating in the SBG Program because it would not be economically viable or cost-effective, and several other commenters agreed.

Thirty-four of the commenters were concerned about the potentially negative impact that the fee increase would have on Sureties or small businesses. SBA received 23 comments opposing the fee increase because it may cause Sureties currently participating in the SBG Program to decrease their level of participation in it. One of the Sureties said that it would withdraw from the SBG Program completely if SBA increases the fee from the present 20% to 32% of the bond premium. Eleven commenters were concerned about the potentially negative impact that the fee increase would have on small business. Some commenters said that small contractors would ultimately bear the burden of the fee increase because Sureties would pass the cost on to them in the form of higher premium rates. Other commenters said that the fee increase would limit availability of bonds for small contractors based on assumptions that all Sureties would withdraw from the SBG Program and, consequently, the Program would no longer exist. Specific concerns were raised about the ability of 8(a), HUBZone, and service-disabled veteran-owned small businesses to secure bonding for contracts obtained through SBA certification as well as for those small contractors seeking contracts to rebuild the Gulf Coast areas damaged by Hurricane Katrina.

SBA has given due consideration to each comment and acknowledges the concerns expressed by Sureties, surety agents, small contractors, and the industry associations to which those parties belong. In response to those comments, however, SBA notes that its duty under Section 661 must be balanced with its explicit statutory obligation to administer the Program "on a prudent and economically justifiable basis" and its authority to

establish fees for Sureties as SBA determines are reasonable and necessary, 15 U.S.C. 694b(h). SBA's duties and authorities must work in harmony. Although SBA has determined that the fee increase is necessary to supplement the current revolving fund reserves to better offset unfunded program liabilities, SBA only increased the fee the minimum amount necessary to operate the SBG Program "on a prudent and economically justifiable basis" to limit the negative impact on Sureties. In addition, SBA is considering procedural and policy changes to improve the Program to attract new surety companies to the SBG Program and to retain existing Sureties.

Furthermore, SBA recognizes that the fee increase may have some impact on small businesses, especially since Hurricane Katrina devastated the Gulf Coast. SBA notes that the notice proposing the fee increase was published in the **Federal Register** on August 15, 2005—two weeks before Hurricane Katrina struck the Gulf Coast. As a result of the disaster, SBA expects that there will be an increase in bond activity through the SBG Program in the next six months because surety bonds are essential for small businesses seeking contracts to rebuild the Gulf Coast after Hurricane Katrina. Although the fee increase remains necessary to better offset unfunded liabilities of the SBG Program, SBA believes that the expected increase in bond activity due to Hurricane Katrina justifies postponing the effective date of fee increase from October 1, 2005, as originally proposed, to April 3, 2006. The 6-month delay will permit SBA, Sureties, and small businesses to operate under the existing framework in the aftermath of Hurricane Katrina.

2. Suggested Improvements to SBG Program

Four of the commenters suggested specific operational and policy changes to the SBG Program that would streamline it, thus making the Program more attractive to new and existing Sureties. Specific changes suggested by the commenters include elimination of multiple applications requiring original signatures, expediting the application process, increasing the number of SBG personnel in the field, and providing Sureties with more flexibility to adjust premiums charged on guaranteed bonds.

SBA appreciates the comments from the industry on possible improvements to the SBG Program. SBA is considering a variety of program changes to encourage new surety companies to participate in the SBG Program, retain existing Sureties, and make the Program

more beneficial for small contractors. SBA reaffirms its commitment to expanding availability of bonds for small contractors by maintaining SBG program operations and making Program improvements. SBA will continue to reassess the Program, including its operations and projected costs, and aim to make it more efficient and cost-effective.
