SUPPLEMENTARY INFORMATION: On August 29, 2005 (70 FR 51042), EPA solicited comment on the Agency's completed 2005 annual review and pending 2006 annual reviews of existing effluent limitations guidelines and pretreatment standards under CWA sections 301(d), 304(b), 304(g), and 307(b), and the Preliminary 2006 Effluent Guidelines Program Plan under CWA section

304(m). EPA also opened a second comment period on the draft *Strategy for National Clean Water Industrial Regulations* ("draft Strategy") (see 67 FR 71165, November 29, 2002). The August 29, 2005 notice describes: (1) The Agency's 2005 annual review of existing effluent limitations guidelines and pretreatment standards under the Clean Water Act (CWA) sections 301(d), 304(b), 304(g), and 307(b); (2) EPA's review of indirect dischargers without categorical pretreatment standards to identify potential new categories for pretreatment standards under CWA sections 304(g) and 307(b); and (3) the preliminary 2006 effluent guidelines program plan under CWA section 304(m) ("Plan"). EPA anticipates completing the final 2006 Plan by August 2006. As required by CWA section 304(m), the final Plan will: (1) Present a schedule for EPA's annual review of existing effluent guidelines under CWA section 304(b) and a schedule for any effluent guidelines revisions; and (2) identify industries for which EPA has not promulgated effluent guidelines but may decide to do so through rulemaking and a schedule for these rulemakings.

The original comment deadline was October 28, 2005. Numerous stakeholders have requested an extension to the comment period in order to adequately understand and provide comments. Additionally, one commenter requested more time due to the difficulty of coordinating with Gulf Coast facilities that were recently incapacitated by hurricanes Rita and Katrina. This action extends the comment period for 30 days.

Dated: October 20, 2005.

Benjamin H. Grumbles,

Assistant Administrator for Water.

Title: Ownership Report for Commercial Broadcast Station.

Form Number: FCC Form 323.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 2,000.

Estimated Time per Response: 0.5 to 1.5 hours.

Frequency of Response: On occasion reporting requirement; Biennial reporting requirement; Upon renewal reporting requirement; Third party disclosure requirement.

Total Annual Burden: 2,750 hours.

Total Annual Cost: \$2,166,800.

Needs and Uses: Each permittee of a commercial AM, FM, TV, and international broadcast station must file FCC Form 323, Ownership Report, within 30 days of the FCC granting their application for an original construction permit, the consummation, pursuant to FCC consent, of a transfer of control or an assignment of a construction permit, and when it files its license for the new station. Each license of a commercial AM, FM, TV, and international broadcast station must file FCC Form 323 with 30 days of the consummation, pursuant to FCC consent, of a transfer of control or an assignment of license, when it files its station's renewal application, and every two years thereafter. Data on the FCC Form 323 helps to determine whether the licensee/permittee meets the FCC's multiple ownership requirements and complies with the Communications Act. The race/ethnicity/gender question on the form indicates current minority and female ownership of broadcast facilities and the efficacy of FCC Rules to promote opportunities for small businesses and minority and female-owned businesses in the broadcasting industry.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1030.

Title: Service Rules for Advanced Wireless Services in the 1.7 GHz and 2.1 GHz Bands.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, Federal Government, and state, local and tribal government.

Number of Respondents: 500.

Estimated Time Per Response: .50 hours-10 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 6,505 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission adopted and released a Report and Order in WT Docket No. 02-353, FCC 03-251, which adopts service, licensing, and competitive bidding rules for advanced wireless services in the 1710-1755 MHz and 2110-2155 MHz bands. These bands have previously been used for a variety of government and non-government services. The R&O allocates these frequency bands for fixed and mobile services to as to provide for the introduction of new advanced wireless services to the public. In the R&O, the Commission is enabling service providers to put this spectrum to its highest value use with minimal transaction costs. By the end of its license term a licensee must provide "substantial service" that is, service that is sound, favorable and substantially above the level of mediocre service that just might minimally warrant renewal. Compared to a construction standard, section 27.14(a)'s substantial service requirement will provide licensees greater flexibility to determine how best to implement their business plans based on criteria demonstrating actual service to end users. This requirement provides the flexibility required to accommodate the new and innovative services that we believe will be forthcoming in these bands.

The Commission is imposing three information collection burdens on the public. They are: (1) Foreign ownership change submission; (b) showing of compliance with substantial service requirement; and (3) interference coordination. Such information has been used in the past and will continue
