Office of the Chief Information Officer

Title: USDA eAuthentication Service Customer Registration.

OMB Control Number: 0503-0014.

Summary of Collection: The USDA Office of the Chief Information Officer (OCIO) developed the eAuthentication

system as a management and technical process that addresses user authentication and authorization prerequisites for providing services electronically. The process requires a voluntary one-time electronic self-registration to obtain an eAuthentication account for each USDA Agency customer desiring access to USDA online services and applications protected by eAuthentication. The information collected through the electronic self-registration process is necessary to enable the electronic authentication of users and grant them access to only those resources for which they are authorized.

Need And Use of the Information: The voluntary self-registration process applies to USDA customers and employees who request access to online USDA services and applications that are protected by eAuthentication. Users can register directly from the eAuthentication Web site located at www.eauth.egov.usda.gov. The information collected through the online self-registration process will be used to provide an eAuthentication account that will enable the electronic authentication of users. The user will then have access to authorized resources without needing to reauthenticate within the context of a single Internet session.

Requests to make an oral presentation at the meeting may also be sent via facsimile to Ms. Katherine Benham at (202) 205-7808 or electronically to Ms. Katherine Benham at Katherine.benham@usda.gov.

FOR FURTHER INFORMATION CONTACT: Katherine E. Benham, Advisory Board Specialist, National Organic Program, (202) 205-7806.

SUPPLEMENTARY INFORMATION: Section 2119 (7 U.S.C. 6518) of the Organic Foods Production Act of 1990 (OFPA), as amended (7 U.S.C. 6501 *et seq.*) requires the establishment of the NOSB. The purpose of the NOSB is to make recommendations about whether a substance should be allowed or prohibited in organic production or handling, to assist in the development of standards for substances to be used in organic production, and to advise the Secretary on other aspects of the implementation of the OFPA. The NOSB met for the first time in Washington, DC, in March 1992, and currently has six committees working on various aspects of the organic program. The committees are: Compliance, Accreditation, and Certification; Crops; Livestock; Materials; Handling; and Policy Development.

In August of 1994, the NOSB provided its initial recommendations for the National Organic Program (NOP) to the Secretary of Agriculture. Since that time, the NOSB has submitted 77 addenda to its recommendations and reviewed more than 269 substances for inclusion on the National List of Allowed and Prohibited Substances. The last meeting of the NOSB was held on August 15-17, 2005, in Washington, DC.

The Department of Agriculture (USDA) published its final National Organic Program regulation in the **Federal Register** on December 21, 2000 (65 FR 80548). The rule became effective April 21, 2001.

The principal purposes of the meeting are to provide an opportunity for the NOSB to receive an update from the USDA/NOP and hear progress reports from NOSB committees regarding work plan items and proposed action items. The NOSB subcommittees (Crops, Livestock, and Handling Committees) will also present and propose, to the full NOSB, recommendations concerning the continued use or prohibition of substances being reviewed under the OFPA's sunset provisions for the National List. The NOSB will vote on these recommendations.

The OFPA authorized a National List of Allowed and Prohibited Substances. The Act also provides that no allowed or prohibited substance would remain on the National List for a period exceeding 5 years unless the exemption or prohibition is reviewed and recommended for renewal by the NOSB and adopted by the Secretary of Agriculture. This expiration is commonly referred to as sunset of the National List. The National List was implemented on October 21, 2002 contained over 170 substances. This first sunset of the National List triggers a review process that must be concluded no later than October 21, 2007. If renewal is not concluded by that date, the use or prohibition of hundreds of materials will no longer be valid for the organic industry, causing most if not all of the organic industry to be in noncompliance with the National Organic Standards. Because this first sunset process involves Federal rulemaking, the NOSB and the NOP has issued guidance and begun work on the National List Sunset process in order to avoid expiration of the National List on October 21, 2007.

For further information, see <http://www.ams.usda.gov/nop>. Copies of the NOSB meeting agenda can be requested from Ms. Katherine Benham by telephone at (202) 205-7806; or by accessing the NOP Web site at <http://www.ams.usda.gov/nop>.

The meeting is open to the public. The NOSB has scheduled time for public input for Sunset Review on Wednesday, November 16, 2005, from 9:40 a.m. to 11:45 a.m., and time for public input on Pasture for Organic Livestock on Thursday, November 17, 2005, from 3 p.m. to 5 p.m. Individuals and organizations wishing to make an oral presentation at the meeting may forward their request by mail, facsimile, or e-
