

(1) *Type of information collection:* New collection.

(2) *The title of the Form/Collection:* Census of Jail Facilities, 2006.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: CJ-3F. Bureau of Justice Statistics, Office of Justice Programs, United States Department of Justice.

(4) *Affected public who will be asked to respond, as well as a brief abstract:* *Primary:* County and City jail authorities. *Secondary:* Federal authorities and private correctional facility operators. The Census of Jail Facilities, together with the Census of Jail Inmates, is the foundation for all national statistics on local jails and inmates. These censuses provide the frames from which to generalize to the nation and to track changes over time. Without periodic censuses, sample surveys would be unreliable, and statistics would be based on a group of jails of unknown representativeness, that were simply convenient to contact and willing to respond. These censuses provide a benchmark against which jurisdictions may compare their correctional populations. Administrators use their data to evaluate staffing and budget needs relative to similarly situated jail jurisdictions. Practitioners, policy makers, and researchers are able to test assertions and conclusions about the causes and consequences of current sentencing release policies. Finally, the censuses present raw material for discussion and evaluation of correctional policies and practices throughout the nation, in some States providing the only sources of objective descriptions of the operation of local jails.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Three thousand eighty-four respondents each taking an average of 120 minutes to respond.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 6,168 annual total burden hours associated with the collection.
