

Needs and Uses: In the *Fifth Report and Order*, the Commission permits price cap LECs to introduce new services on a streamlined basis, without prior approval. The Commission modified the rules to eliminate the public interest showing required by Section 69.4(g) and to eliminate the new services test (except in the case of loop-based new services) required under Sections 61.49(f) and (g). These modifications eliminated the delays that existed for the introduction of new services as well as to encourage efficient investment and innovation.

The Commission no longer requires an incumbent LEC to introduce a new service by filing a waiver under Part 69 of the Commission's rules. Instead, incumbent LECs are allowed to file a petition for the new service based on a public interest standard. After the first incumbent LEC has satisfied the public interest requirement for establishing new rate elements for a new switched access service, other incumbent price cap LECs can file petitions seeking authority to introduce identical rate elements for identical new services, and their petitions will be reviewed within ten days. If the Common Carrier Bureau (now the Wireline Competition Bureau) does not act within the prescribed time, authority to establish the rate elements in question are deemed granted. In the event the Bureau denies an incumbent LEC's initial petition, or a subsequent petition filed by another incumbent LEC, the petitioner must file a Part 69 waiver petition.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

November 9, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control

number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number.

Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before January 23, 2006. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your Paperwork Reduction Act (PRA) comments by e-mail or U.S. postal mail. To submit your comments by e-mail send them to: PRA@fcc.gov. To submit your comments by U.S. mail, mark it to the attention of Judith B. Herman, Federal Communications Commission, 445 12th Street, SW., Room 1-C804, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) send an e-mail to PRA@fcc.gov or contact Judith B. Herman at 202-418-0214.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0900.

Title: Compatibility of Wireless Services with Enhanced 911; Second Report and Order, CC Docket No. 94-102.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 140.

Estimated Time Per Response: 20 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 2,190 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The rules in this proceeding requires that analog cellular phones include a separate capability for

processing 911 calls that permits those calls to be handled, where necessary, by either cellular carrier in the area. This rule applies to new handsets manufactured for sale in the United States after 02/13/00. The rulemaking also sets forth guidelines for 911 call completion methods that satisfy the Commission's rules and approved three methods for compliance with the call completion rules, Automatic A/B Roaming-Intelligent Retry, Adequate/Strongest Signal, and Selective Retry. Manufacturers may satisfy their requirement by selecting any one of these methods, all of which entail software or hardware modifications. This information submitted by manufacturers or carriers wishing to incorporate new or modified E911 call processing modes will be used to keep the Commission informed of technological developments and thus to ensure that the Commission's regulations are kept current and reflect the preferences of the industry in complying with E911 call completion regulations. The rulemaking also supported as a voluntary measure (not a requirement) industry efforts to educate users of analog phones with regard to capabilities of the A over B, B over A, (A/B, B/A) logic for 911 calls. This approach would provide that all analog cellular calls, including 911 calls, would be routed to the customer's preferred carrier if a usable channel is available. If a channel is not available, the handset would automatically switch to a usable channel on the other cellular carrier's system. The industry program to educate users should also inform customers of the possibility that an A/B, B/A approach could produce unexpected and wanted roaming charges in the case of ordinary calls.

Federal Communications Commission.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

November 10, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the

following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 23, 2005. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., DC 20554 or via the Internet to Judith-B.Herman@fcc.gov. If you would like to obtain or view a copy of this information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pra>.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1022.
Title: Section 101.1403, Broadcast Carriage Requirements.
Form No.: N/A.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit.
Number of Respondents: 214.
Estimated Time Per Response: 1 hour.
Frequency of Response: On occasion reporting requirement and third party disclosure requirement.
Total Annual Burden: 214 hours.
Total Annual Cost: N/A.
Privacy Act Impact Assessment: N/A.

Needs and Uses: Section 101.1403 requires certain Multichannel Video Distribution and Data Service (MVDDS) licensees to comply with the statutory broadcast carriage requirements of 47 U.S.C. Section 325(b)(1). These MVDDS licensees must obtain the prior express authority of a broadcast station before retransmitting that station's signal.

With this submission, the Commission is revising this information collection because on July 7, 2003, the Commission released a Third Report and Order in ET Docket No. 98-206 (FCC 03-152) that decreased the number of MVDDS license areas from 354 Component Economic Areas (CEAs) to 214 license areas (210 Designated Market Areas (DMAs) and four FCC-defined areas). As a result of this change the number of respondents required to meet the requirements of Section 101.1403 decreased from 354 to 214.

OMB Control No.: 3060-1023.
Title: Section 101.103, Frequency Coordination Procedures.
Form No.: N/A.

Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit.

Number of Respondents: 214.
Estimated Time Per Response: .5 hours—1 hour.
Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 1,177 hours.
Total Annual Cost: N/A.
Privacy Act Impact Assessment: N/A.
Needs and Uses: Section 101.103(f) requires MVDDS licensees to provide notice of intent of construct of proposed antenna to NGSO FSS licensees operating in the 12.2 " 12.7 GHz frequency band and maintain an Internet Web site of all existing transmitting sites and transmitting antenna that are scheduled for operation within one year including the "in service" dates.

With this submission, the Commission is revising this information collection because on July 7, 2003, the Commission released a Third Report and Order in ET Docket No. 98-206 (FCC 03-152) that decreased the number of MVDDS license areas from 354 Component Economic Areas (CEAs) to 214 license areas (210 Designated Market Areas (DMAs) and four FCC-defined areas). As a result of this change the number of respondents required to meet the requirements of Section 101.103 decreased from 354 to 214. However, the Commission is increasing the total annual burden hours to 1,177 (from 177 hours) to reflect the

previously approved requirement to establish and update an Internet site.

OMB Control No.: 3060-1024.
Title: Section 101.1413, License Term and Renewal Expectancy.

Form No.: N/A.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit.
Number of Respondents: 214.
Estimated Time Per Response: .50 hours.

Frequency of Response: On occasion and 10 year reporting requirements.
Total Annual Burden: 107 hours.
Total Annual Cost: \$5,300.
Privacy Act Impact Assessment: N/A.

Needs and Uses: Section 101.1413 requires MVDDS licensees to file a showing of substantial service at five and ten years into the initial license term. The substantial service requirement is defined as a service that is sound, favorable, and substantially above the level of mediocre service which might minimally warrant renewal. The renewal obligation of an MVDDS licensee must include the following showings in order to claim a renewal expectancy: (1) A coverage map depicting the served and unserved areas; (2) a corresponding description of current service in terms of geographic coverage and population served or transmitter locations in the served areas; and (3) copies of any Commission Orders finding the licensee to have violated the Communications Act or any Commission rule or policy and a list of any pending proceedings that relate to any matter described by the requirements for the renewal expectancy. With this submission, the Commission is revising this information collection because on July 7, 2003, the Commission released a Third Report and Order in ET Docket No. 98-206 (FCC 03-152) that decreased the number of MVDDS license areas from 354 Component Economic Areas (CEAs) to 214 license areas (210 Designated Market Areas (DMAs) and four FCC-defined areas). As a result of this change the number of respondents required to meet the requirements of Section 101.1413 decreased from 354 to 214.
OMB Control No.: 3060-1025.
Title: Section 101.1440, MVDDS Protection of Direct Broadcast Satellites (DBS).
Form No.: N/A.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit.
Number of Respondents: 217.
Estimated Time Per Response: 40 hours for 214 MVDDS licensees; 25 hours per 3 DBS licensees.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 8,635 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: Section 101.1440 requires MVDDS licensees to conduct a survey of the area around its proposed transmitting antenna site to determine the location of all DBS customers of record that may potentially be affected by the introduction of its MVDDS service. At least 90 days prior to the planned date of MVDDS commencement of operations, the MVDDS licensee must then provide specific information to the DBS licensee(s). Alternatively, MVDDS licensees may obtain a signed written agreement from DBS customers of record stating that they are aware of and agree to their DBS system receiving MVDDS signal levels in excess of the appropriate Equivalent Power Flux Density (EPFD) limits. The DBS licensee must thereafter provide the MVDDS licensee with a list of only those new DBS customer locations that have been installed in the 30-day period following the MVDDS notification that the DBS licensee believes may receive harmful interference or where the prescribed EPFD limits may be exceeded. If the MVDDS licensee determines that its signal level will exceed the EPFD limit at any DBS customer site, it shall take whatever steps are necessary, up to and including finding a new transmitter site.

With this submission, the Commission is revising this information collection because on July 7, 2003, the Commission released a Third Report and Order in ET Docket No. 98–206 (FCC 03–152) that decreased the number of MVDDS license areas from 354 Component Economic Areas (CEAs) to 214 license areas (210 Designated Market Areas (DMAs) and four FCC-defined areas). As a result of this change the number of respondents required to meet the requirements of Section 101.1440 decreased from 354 to 214.

OMB Control No.: 3060–1026.

Title: Section 101.1417, Annual Report.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 214.

Estimated Time Per Response: 1 hour.

Frequency of Response: Annual reporting requirement.

Total Annual Burden: 214 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: Section 101.1417 requires MVDDS licensees to file with

the Commission two copies of a “license information report” by March 1st of each year for the preceding calendar year. This annual report must include the name and address of the licensee; the station(s) call letters and primary geographic service area(s); and statistical data for the licensee’s station.

With this submission, the Commission is revising this information collection because on July 7, 2003, the Commission released a Third Report and Order in ET Docket No. 98–206 (FCC 03–152) that decreased the number of MVDDS license areas from 354 Component Economic Areas (CEAs) to 214 license areas (210 Designated Market Areas (DMAs) and four FCC-defined areas). As a result of this change the number of respondents required to meet the requirements of Section 101.1417 decreased from 354 to 214.

Federal Communications Commission.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

November 9, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated

collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 23, 2005. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, Room 1–C804, 445 12th Street, SW., DC 20554 or via the Internet to *Judith-B.Herman@fcc.gov*. If you would like to obtain or view a copy of this information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pr>.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202–418–0214 or via the Internet at *Judith-B.Herman@fcc.gov*.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0944.

Title: Review of Commission Consideration of Applications under the Cable Landing License Act.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 25 respondents; 200 responses.

Estimated Time Per Response: 5–9 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 1,001 hours.

Total Annual Cost: \$402,175.

Privacy Act Impact Assessment: N/A.

Needs and Uses: A carrier must generally obtain landing rights approval if it wants to land an undersea cable onto another country’s shores. For example, if a carrier wants to land a cable upon U.S. shores, the carrier must first obtain permission from the U.S. government before it may do so. These situations are governed by the Cable Landing License Act, which gives the President of the United States broad discretion to grant, withhold, condition or revoke cable landing licenses under certain conditions. By Executive Order 10530, the Commission has been delegated responsibility for issuing cable landing licenses.

The Commission is submitting this information collection to the OMB as a revision. The Commission has implemented mandatory electronic
