

Sharks provide for inseason retention limit adjustments to respond to the unpredictable nature of BFT availability on the fishing grounds, the migratory nature of this species, and the regional variations in the BFT fishery. New information shows that landing rates are low and predicted weather conditions are unfavorable for the upcoming open fishing days. Based on a review of recent information regarding the availability of BFT on the fishing grounds, dealer reports, daily landing trends, available quota, and weather conditions, NMFS has determined that this retention limit adjustment is warranted to increase access to available quota.

Delays in waiving the selected RFDs, and thereby not increasing the General category daily retention limit, would be contrary to the public interest. Such delays would adversely affect those General category vessels that would otherwise have an opportunity to harvest BFT on an RFD and would further exacerbate the problem of low catch rates. Limited opportunities to access the General category quota may have negative social and economic impacts to U.S. fishermen that depend on catching the available quota. For the General category, waiving of the selected RFDs needs to be done as expeditiously as possible for the General category participants to be able to use the waived RFDs to take advantage of the adjusted retention limits and plan accordingly.

Therefore, the AA finds good cause under 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment. For all of the above reasons, and because this action relieves a restriction (i.e., waives a number of RFDs, thus increasing the opportunity to retain more fish), there is also good cause under 5 U.S.C. 553(d) to waive the 30-day delay in effectiveness.

This action is being taken under 50 CFR 635.23(a)(4) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 971 *et seq.* and 1801 *et seq.*

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 041126332-5039-02; I.D. 011306A]

Fisheries of the Exclusive Economic Zone Off Alaska; Atka Mackerel Lottery in Areas 542 and 543

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of fishery assignments.

SUMMARY: NMFS is notifying the owners and operators of registered vessels of their assignments for the 2006 A season Atka mackerel fishery in harvest limit area (HLA) 542 and/or 543 of the Aleutian Islands subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to allow the harvest of the 2006 A season HLA limits established for area 542 and area 543 pursuant to the 2005 and 2006 harvest specifications for groundfish in the BSAI.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 17, 2006, until 1200 hrs, A.l.t., April 15, 2006.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

In accordance with § 679.20(a)(8)(iii)(A), owners and operators of vessels using trawl gear for directed fishing for Atka mackerel in the HLA are required to register with NMFS. Six vessels have registered with NMFS to fish in the A season HLA fisheries in areas 542 and/or 543. In

order to reduce the amount of daily catch in the HLA by about half and to disperse the fishery over time and in accordance with § 679.20(a)(8)(iii)(B), the Administrator, Alaska Region, NMFS, has randomly assigned each vessel to the HLA directed fishery for Atka mackerel for which they have registered and is now notifying each vessel of its assignment.

Vessels authorized to participate in the first HLA directed fishery in area 542 and/or in the second HLA directed fishery in area 543 in accordance with § 679.20(a)(8)(iii) are as follows: Federal Fishery Permit number (FFP) 2443 Alaska Juris, FFP 3400 Alaska Ranger, and FFP 4093 Alaska Victory.

Vessels authorized to participate in the first HLA directed fishery in area 543 and/or the second HLA directed fishery in area 542 in accordance with § 679.20(a)(8)(iii) are as follows: FFP 3423 Alaska Warrior, FFP 3835 Seafisher, and FFP 3819 Alaska Spirit.

Classification

The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is unnecessary. This notice merely advises the owners of these vessels of the results of a random assignment required by regulation. The notice needs to occur immediately to notify the owner of each vessel of its assignment to allow these vessel owners to plan for participation in the A season HLA fisheries in area 542 and area 543.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by §§ 679.20 and 679.22 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*
