Title: NESHAP for Flexible Polyurethane Foam Fabrication (Renewal).

ICR Status: This ICR is scheduled to expire on May 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for flexible polyurethane foam fabrication were proposed on August 8, 2001 (66 FR 41729), and promulgated on April 14, 2003 (68 FR 18070). These standards apply to each existing, new, or reconstructed flexible polyurethane foam fabrication. For the purpose of the rule, flexible polyurethane foam fabrication is divided in the following two subcategories: (1) Loop slitter adhesive use, and (2) flame lamination.

Owners or operators of the affected facilities must make the following notification: (1) Initial notification, (2) notification of compliance status, and (3) notification of intent to conduct a performance test (flame lamination only). Affected sources must submit compliance reports, and a startup, shutdown, malfunction report. Owners or operators are also required to maintain records of the occurrence and

duration of any startup, shutdown, or malfunction (flame lamination only). Annual compliance reports are only required for loop slitter facilities and semiannual compliance reports for flame lamination facilities.

Any owner or operator subject to the provisions of this subpart must maintain a file of these measurements, and retain the file for at least five years following the collection of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 89 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; to train personnel to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information.

Respondents/Affected Entities: Owner or operator of each flexible polyurethane foam fabrication facility.

Estimated Number of Respondents: 11.

Frequency of Response: On occasion, annually, semiannually and initially.

Estimated Total Annual Hour Burden: 12,303.

Estimated Total Annual Costs: \$1,004,834, which includes \$997 annualized capital/startup costs, \$1,674 annual O&M costs, and \$1,002,163 annual labor costs.

Changes in the Estimates: There was an increase of 11,092 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The increase in burden hours from the most recently approved ICR is due, in part, to an increase of new sources. However, most of the burden increase is due to accounting for full compliance with the standard by all existing respondents. There is also an increase in the annual cost, which is

due to the revised hourly rates from the United States Department of Labor.

There are no changes in the capital/startup and operations and maintenance costs from the previous ICR.

Dated: March 21, 2006.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Contractor Cumulative Claim and Reconciliation (Renewal), EPA ICR Number 0246.09, OMB Control Number 2030-0016

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before April 28, 2006.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OARM-2005-0003 for Contractor Cumulative Claim and Reconciliation (Renewal), EPA ICR Number 0246.09, OMB Control Number 2030-0016, to (1) EPA online using <http://www.regulations.gov> (our preferred method), by e-mail to oei.docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Office of Environmental Information Docket (OEI), Mail Code 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Nikki Burley, Policy and Oversight Service Center, Office of Acquisition Management, Mail Code 3802R, Environmental Protection Agency, 1200

Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-9723 ; fax number: (202) 565-2552; e-mail address: burley.nikki@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On October 20, 2005 (70 FR 61124), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID number EPA-HQ-OARM-2005-0003, which is available for public viewing at the OEI Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the OEI Docket is 202-566-1752. An electronic version of the public docket is available for online viewing at <http://www.regulations.gov>.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Contractor Cumulative Claim and Reconciliation (Renewal).

ICR Numbers: EPA ICR No. 0246.09, OMB Control No. 2030-0016.

ICR Status: This ICR is scheduled to expire on March 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when

approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: At the completion of a cost reimbursement contract, contractors will report final costs incurred, including direct labor, materials, supplies, equipment, other direct charges, subcontracting, consultant fees, indirect costs, and fixed fee. Contractors will report this information on EPA Form 1900-10. EPA will use this information to reconcile the contractor's costs. Establishment of the final costs and fixed fee is necessary to close out the contract. Responses to the information collection are mandatory for those contractors completing work under a cost reimbursement contract, and are required to receive final payment. Information submitted is protected from public release in accordance with the Agency's confidentiality regulation, 40 CFR 2.201 *et seq.*

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 40 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: All contractors who have completed an EPA cost reimbursement type contract will be required to submit EPA Form 1900-10.

Estimated Number of Respondents: 47.

Frequency of Response: At contract completion.

Estimated Total Annual Hour Burden: 32.

Estimated Total Annual Cost: \$3,500, which includes \$0 annual capital/startup costs, \$500 annual O&M costs, and \$3,000 annual labor costs.

Changes in the Estimates: In the last OMB clearance, respondent burden hours were estimated at 163 hours per year. The current estimate is 32 hours per year for an overall decrease of 131 hours. The decrease in burden from the previous approval is due to the fact that EPA had a large backlog of expired contracts that the Agency actively closed out during that time, thus increasing the need for submitting the EPA form 1900-10. The requested burden estimate is consistent with EPA's normal business activity for requiring the contractor's cumulative claim and reconciliation. The time required to prepare each information collection has not changed since the last clearance.

Dated: March 21, 2006.

Oscar Morales,

Director, Collection Strategies Division.

Guidelines for the Award of Monitoring Initiative Funds Under Section 106 Grants to States, Interstate Agencies, and Tribes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: These guidelines describe the formula necessary for EPA to allot Clean Water Act (CWA) Section 106 water pollution control program grant funds that have been targeted in EPA's appropriation process to support enhanced monitoring efforts by states, interstate agencies, and tribes for FY 2006 and beyond. These guidelines also describe the specific activities that states, interstate agencies, and tribes must carry out under the monitoring initiative in order to receive the funds. These activities will improve state and tribal capacity to monitor and report on water quality, and include two components: implementation of comprehensive monitoring strategies, including building capacity for state-scale statistically-valid surveys of water condition, and collaboration on statistically-valid surveys of the nation's waters.

DATES: The guidelines are effective on March 29, 2006.
