EPA has determined that this pesticide petition contains data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petition. Additional data may be needed before EPA rules on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition included in this notice, prepared by the petitioner along with a description of the analytical method available for the detection and measurement of the pesticide chemical residues is available on EPA's Electronic Docket at <http://www.regulations.gov>. To locate this information on the home page of EPA's Electronic Docket, select "Quick Search" and type the OPP docket ID number. B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. II. Background

A. What Action is the Agency Taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the Administrator determines that emergency conditions exist which require the exemption. The Massachusetts Department of Agricultural Resources has requested the Administrator to issue a specific exemption for the use of pronamide on cranberries to control dodder. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the applicant asserts that with the widespread adoption of water harvesting, dodder infestations have become practically ubiquitous in the Massachusetts cranberry production area. The detrimental impact of dodder infestations on cranberry yields have been reported widely in scientific journals, extension publications and internal memorandum. Yield losses can range from 12% in slight infestations up to 100% in severe infestations. Currently registered herbicides have not been totally effective, leading to a steady increase in dodder infestations.

The Applicant proposes to make no more than two pre-emergence broadcast applications at a rate of 1.0–2.0 lbs of product per acre (0.5–1.0 lbs acre (a.i.) on 8,000 acres of cranberries. No more than 2.0 lbs of product/acre/season 1.0 lbs a.i. may be made as a result of single or split application.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 of FIFRA require publication of a notice of receipt of an application for a specific exemption proposing a use which has been requested in 3 or more previous years, and a petition for tolerance has not yet been submitted to the Agency.

As noted above, the Agency is eliminating the comment period due to the urgent nature of an emergency situation and the very narrow and extremely limited use being requested. Nonetheless, interested parties may still contact the Agency with comments about this notice and treatment program.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of solicitation of applications and information on alternatives.

SUMMARY: EPA is soliciting applications for the critical use exemption from the phaseout of methyl bromide for 2009 and beyond. In addition, those applicants who missed last year's deadline to apply for a critical use exemption for the year 2008 may file a supplemental application in response to the notice. This exemption is an annual exemption and all entities interested in obtaining a critical use exemption must provide EPA with technical and economic information to support a "critical use" claim, and must do so by

the deadline specified in this notice even if they have previously applied for an exemption. This notice also invites interested parties to provide EPA with new data on the technical and economic feasibility of methyl bromide alternatives.

DATES: Applications for the critical use exemption must be postmarked on or before July 10, 2006. Applications for an exemption are due one month earlier to EPA this year to reflect the compressed schedule for review of applications in 2007.

ADDRESSES: Applications for the methyl bromide critical use exemption should be submitted in duplicate (two copies) by mail to: U.S. Environmental Protection Agency, Office of Air and Radiation, Stratospheric Protection Division, Attention: Marta Montoro/ Methyl Bromide Review Team, Mail Code 6205J, 1200 Pennsylvania Ave., NW., Washington, DC 20460 or by courier delivery (other than U.S. Post Office overnight) to: U.S. Environmental Protection Agency, Office of Air and Radiation, Stratospheric Protection Division, Attention: Marta Montoro/ Methyl Bromide Review Team, 1310 L St., NW., Room 827L, Washington, DC 20005. EPA also encourages users to submit their applications electronically to Marta Montoro, Stratospheric Protection Division, at montoro.marta@epa.gov. SUPPLEMENTARY INFORMATION:

Applications are due one month earlier

to EPA due to the compressed review schedule for critical use exemptions in the year 2007. The 19th Meeting of the Parties is scheduled to be held in September 2007, almost two months earlier than previous meetings of the parties which typically occur in November or December. The EPA will submit a nomination for critical uses earlier than the end of January and will shorten its own review process by one month. In addition, in this notice, EPA is notifying applicants that their application process is being shortened by one month with July 10th as the deadline for applications. EPA also renewed the Information Collection Request (ICR) for the applications on August 31, 2005. The ICR is now valid through August 31, 2008. As a result of the ICR renewal, the format and numbering of the application worksheets changed minimally.
