

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. What Action is the Agency Taking?

EPA is printing a summary of a pesticide petition received under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment of regulations in 40 CFR 180.409 for residues of pirimiphos-methyl in or on sunflower seeds. EPA has determined that this pesticide petition contains data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petition. Additional data may be needed before EPA rules on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition included in this notice, prepared by the petitioner along with a description of the analytical method available for the detection and measurement of the pesticide chemical residues is available on EPA's Electronic Docket at <http://www.regulations.gov>. To locate this information on the home page of EPA's Electronic Docket, select "Quick Search" and type the OPP docket ID number. Once the search has located the docket, clicking on the "Docket ID" will bring up a list of all documents in the docket for the pesticide including the petition summary.

New Tolerance

PP 6E7056. Interregional Research Project Number 4 (IR-4), 681 Highway 1 South, North Brunswick, NJ 08902-3390, proposes to establish a tolerance for residues of the insecticide pirimiphos-methyl in or on sunflower seeds at 10 parts per million (ppm). The samples were analyzed using the working method titled "Pirimiphos-Methyl: Magnitude of the Residue on Sunflower", a method very similar to the reference method, "Determination of Residues of Pirimiphos-methyl and its Phosphorus-containing metabolites in Crops, Water and Animal Tissues. Residue Analytical Method No. 11A, ICI Plant Protection Limited." No analysis of metabolites was conducted.

Sunflower seeds are blended with 20% acetone/hexane, filtered, and then partitioned with hexane/acetonitrile to remove the oil. Sunflower oil samples are dissolved in hexane and partitioned with hexane/acetonitrile to remove the oil. The combined acetonitrile layers are

concentrated prior to cleanup. Processed meal samples are homogenized with 20% acetone/hexane, filtered, and then concentrated. Oil is removed via a hexane/acetonitrile partition. Samples from all matrices are then cleaned up by a Florisil cleanup procedure. All samples are analyzed for pirimiphos-methyl using a Hewlett-Packard 5890 gas chromatograph with a flame photometric (FPD) operated in the phosphorus mode (526 nm filter).

Method suitability was evaluated both prior to sample analysis and concurrently with sample analysis. The method was validated prior to sample analysis using commercially obtained dried sunflower root. The method validation recoveries ranged from 81 to 92% in seeds, 85 to 106% in meal, and 80 to 93% in oil. Concurrent recoveries obtained during sample analysis ranged from 85 to 106% in seeds, 78 to 92% in meal, and 86 to 94% in oil.

List of Subjects

Environmental protection, Agricultural commodities, Feed additives, Food additives, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: April 28, 2006.

Lois Rossi,

Director, Registration Division, Office of Pesticide Programs.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2006-0366; FRL-8067-4]

Notice of Filing of Pesticide Petitions for Establishment to Regulations for Residues of Bifenthrin in or on Leafy Brassica Greens, Subgroup 5B; Turnip Greens; Tuberous and Corm Vegetables, Subgroup 1C; Okra; Dried Shelled Pea and Bean (Except Soybean), Subgroup 6C; and Cilantro

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the initial filing of pesticide petitions proposing the establishment of regulations for residues of Bifenthrin in or on Leafy Brassica Greens, Subgroup 5B; Turnip Greens; Tuberous and Corm Vegetables, Subgroup 1C; Okra; Dried Shelled Pea and Bean (Except Soybean), Subgroup 6C; and Cilantro.

DATES: Comments must be received on or before June 9, 2006.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2006-0366, by one of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *Mail:* Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

- *Delivery:* OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. Deliveries are only accepted during the Docket's normal hours of operation (8:30 a.m. to 4 pm., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket telephone number is (703) 305-5805.

Instructions: Direct your comments to docket ID number EPA-HQ-OPP-2006-0366. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The Federal www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index. Although listed in the index, some information is not publicly available, e.g., CBI or other

information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Building), 2777 S. Crystal Drive, Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Docket Facility is (703) 305-5805.

FOR FURTHER INFORMATION CONTACT: Shaja R. Brothers, Registration Division (7505P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 308-3194; e-mail address: brothers.shaja@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the

disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. What Action is the Agency Taking?

EPA is printing a summary of each pesticide petition received under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment of regulations in 40 CFR part 180.442 for residues of bifenthrin in or on leafy brassica greens, subgroup 5B; turnip greens; tuberous and corm vegetables, subgroup 1C; okra; dried shelled pea and bean (except soybean), subgroup 6C; and cilantro. EPA has determined that this pesticide petitions contain data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. Additional data may be needed before EPA rules on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of the petitions included in

this notice, prepared by the petitioner is available on EPA's Electronic Docket at <http://www.regulations.gov>. To locate this information on the home page of EPA's Electronic Docket, select "Quick Search" and type the OPP docket ID number. Once the search has located the docket, clicking on the "Docket ID" will bring up a list of all documents in the docket for the pesticide including the petition summary.

New Tolerance

PP 2E6451, 3E6882, 2E6492, 2E6423, and 4E6843. Interregional Research Project No. 4 (IR-4), 681 Highway 1 South, North Brunswick, NJ 08902-33901, proposes to establish tolerances for residues of the insecticide bifenthrin, ((2-methyl 1,1 -biphenyl-3-yl) methyl-3-(2-chloro-3,3,3-trifluoro-1-propenyl)-2,2-dimethylcyclopropanecarboxylate) in or on leafy brassica greens, subgroup 5B at 3.0 parts per million (ppm) (2E6451); turnip greens at 3.0 ppm (2E6451); tuberous and corm vegetables, subgroup 1C at 0.1 ppm (3E2688), okra at 0.5 ppm (2E2649); dried shelled pea and bean (except soybean), subgroup 6C at 0.1 ppm (2E6423); and cilantro at 5.0 ppm (4E6843). There is a practical analytical method for detecting and measuring levels of bifenthrin in or on food with a limit of detection that allows monitoring of food with residues at or above the levels set in these tolerances Gas Chromatography with Electron Capture Detection (GC/ECD).
