Title: Part B Permit Application, Permit Modifications, and Special Permits (Renewal).

ICR numbers: EPA ICR No. 1573.11, OMB Control No. 2050-0009.

ICR status: This ICR is currently scheduled to expire on July 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for

EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 3005 of Subtitle C of RCRA requires treatment, storage or disposal facilities (TSDFs) to obtain a permit. To obtain the permit, the TSDFs must submit an application describing the facility's operation. There are two parts to the RCRA permit application—Part A and Part B. Part A defines the processes to be used for treatment, storage, and disposal of hazardous wastes; the design capacity of such processes; and the specific hazardous wastes to be handled at the facility. Part B requires detailed site specific information such as geologic, hydrologic, and engineering data. In the event that permit modifications are proposed by the applicant or EPA, modifications must conform to the requirements under sections 3004 and 3005.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 262 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Business or other for-profit.

Estimated Number of Respondents: 97.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 25,430.

Estimated Total Annual Cost: \$7,518,000, which includes \$45,000 annualized capital/startup costs, \$5,658,000 annual O&M costs and \$1,815,000 annual labor costs.

Changes in the Estimates: There is an increase of 13,221 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to the larger number of affected facilities, based on the current information and reporting requirements from the RCRAInfo database.

Dated: July 12, 2006.

Title: Reporting Requirements Under EPA's Climate Leaders Partnership (Renewal).

ICR numbers: EPA ICR No. 2100.02, OMB Control No. 2060-0532.

ICR Status: This ICR is scheduled to expire on September 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it

displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and included on the related collection instrument or form, if applicable.

Abstract: In an effort to aid implementation of U.S. commitments in the United Nations Framework Convention on Climate Change, the President announced a Climate Change Strategy on February 14, 2002, wherein he set a national U.S. GHG intensity goal of 18 percent by 2012. Part of that strategy challenges companies to set GHG reduction goals by working with EPA through the voluntary Climate Leaders program. EPA has developed this renewal ICR to ensure that the program remains credible by obtaining continued authorization to collect information from Climate Leaders Partners to ensure the Partners are meeting their GHG goals over time. Companies that join Climate Leaders voluntarily agree to the following: Completing and submitting a Partnership Agreement; negotiating a corporate GHG reduction goal; submitting a GHG inventory management plan; participating in an onsite review of the inventory management plan, and reporting to EPA, on an annual basis, the company's GHG emissions inventory, and progress toward their GHG reduction goal via Climate Leaders Annual GHG Inventory Summary and Goal Tracking Form. The information contained in the inventories of the companies that join Climate Leaders may be considered confidential business information and is maintained as such. EPA uses the data obtained from the companies to assess the success of the program in achieving its GHG reduction goals. Responses to the information collection are voluntary.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to equal 11,955 hours and to average 94.13 hours per year per respondent. The average number of annual burden hours on first year partners for each type of one-time response is: 9.67 hours to complete and submit a Partnership Agreement, 46.75 hours for documenting and submitting an Inventory Management Plan, 22.25 hours participating in an on-site verification of the Inventory Management Plan, 41 hours for negotiating and setting a GHG reduction goal, 117.5 hours for establishing a base year inventory, and 3.5 hours to submit a company profile that is posted on the Web. For all other partners who have
