

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275) and the Department of Energy Organization Act (Pub. L. 95-91), the Energy Information Administration (EIA) is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

In the March 23, 2006, **Federal Register** (71 FR 14690), EIA announced its plan to discontinue the collection of Forms EIA-182 and EIA-856 after the data for July 2006 were collected. Given that no final decision has yet been made by the Congress regarding EIA's Fiscal Year 2007 budget, EIA has decided to continue collecting both forms monthly through the reporting of October 2006 data that is due to EIA by November 30, 2006, when the current Office of Management and Budget approval of all EIA petroleum marketing surveys is scheduled to expire.

II. Current Actions

EIA will continue collecting the Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report," through November 30, 2006.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35).

Issued in Washington, DC, August 1, 2006.

Jay H. Casselberry,

Agency Clearance Officer, Energy Information Administration.

[Docket No. CP06-422-000]

Cameron LNG, LLC, Notice of Application

July 28, 2006.

Take notice that on July 18, 2006, as supplemented on July 27, 2006, Cameron LNG, LLC (Cameron LNG) filed an application pursuant to section

3 of the Natural Gas Act (NGA) and Part 153 of the Commission's Rules and Regulations for approval of proposed expansion and modifications of its liquefied natural gas (LNG) import terminal. The Commission has previously granted approvals for Cameron LNG's import terminal, which is now under construction.¹

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding the application may be directed to Stacy Van Goor, Director, Federal Regulatory Affairs, Sempra Global, 101 Ash Street HQ08C, San Diego, California 92101. Telephone number is 619-696-2264. Facsimile number is 619-696-2500. E-mail address is svangoor@sempraglobal.com.

The application seeks authority to expand the LNG terminal facilities previously approved and, in particular: (i) To increase the sendout rate of the terminal to 2,650,000 Mcf/d from the previously authorized send out rate of 1,500,000 Dth/d; (ii) to increase LNG storage tank capacity from 480,000 m³ to 640,000 m³ through the addition of a fourth storage tank; (iii) to increase the LNG unloading rate at each ship berth; (iv) to increase the send out rate to 1,800,000 Mcf/d from the previously certificated send out rate of 1,500,000 Dth/d, on an interim basis, while the proposed expansion facilities are being constructed, and (v) to modify the Btu control unit to include an option for diluting the send out gas with an inert gas stream composed of nitrogen and oxygen in addition to, or as an alternative to the liquids-stripping facility previously identified by Cameron LNG in earlier applications.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426,

¹ See Hackberry LNG Terminal, L.L.C., 101 FERC 61,294 (2002) and Cameron LNG, LLC; 104 FERC 61,269 (2003); 111 FERC 61,018 (2005), and 115 FERC 61,229 (2006).

a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Please note that on February 10, 2006, the Commission issued a Notice of Intent to Prepare an Environmental Assessment for Cameron LNG's above proposed LNG terminal expansion project in Docket No. PF06-10-000. The environmental pre-filing review of Cameron LNG's proposal has been underway since December 2005 in that docket. However, Docket No. PF06-10-000 is now closed and all further

environmental comments should reference the pending application in Docket No. CP06-422-000.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Comment Date: August 21, 2006.

[Docket No. RP06-444-000]

Egan Hub Storage, LLC; Notice of Proposed Changes in FERC Gas Tariff

July 28, 2006.

Take notice that on July 25, 2006, Egan Hub Storage, LLC (Egan Hub) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the tariff sheets listed in Appendix A to the filing to be effective August 25, 2006.

Egan Hub states that copies of its filing have been mailed to all affected customers and interested state commissions.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically

should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Northern Natural Gas Company; Notice of Petition for Limited Waiver of Tariff Provisions

July 28, 2006.

Take notice that on July 14, 2006, Northern Natural Gas Company (Northern) filed a Petition for Limited Waiver of Tariff Provisions. Northern states that it seeks to waive section 32(f) of its general terms and conditions in order to allow Northern to resolve a 17,771 Dt. imbalance cash-out transaction for Aquila, Inc., which was intended to be resolved through imbalance-to-storage but never communicated.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene

or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

[Docket No. CP06-64-000]

Central New York Oil and Gas Company, L.L.C.; Notice of Availability of the Environmental Assessment for the Proposed Stagecoach Phase II Expansion Project

July 28, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Central New York Oil and Gas Company, L.L.C. (CNYOG) in the above-referenced dockets.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of CNYOG's proposed underground gas storage facilities and associated pipeline
