SUPPLEMENTARY INFORMATION:

Security zones around escorted vessels are necessary to ensure the safe transit of the escorted vessels as well as the public. Certain vessel movements are more vulnerable to terrorist acts and it would be contrary to the public interest to publish an NPRM which would incorporate a notice and comment period that would delay the effective date of this regulation.

For the same reasons and under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the *Federal Register*.

Background and Purpose

The terrorist attacks of September 2001 heightened the need for development of various security measures throughout the seaports of the United States, particularly around vessels and facilities whose presence or
