Title and OMB Number: TRICARE Network Provider Survey; OMB Control Number 0720–TBD.

Needs and Uses: The goals of this survey effort are to stress TRICARE Network Provider satisfaction, attitudes and perceptions regarding the services provided by civilian Health Care Support and Service Contractors (HCSS) and TRICARE.

Affected Public: Individuals or Households; Federal Government.

Annual Burden Hours: 2,790.

Number of Respondents: 9,000.

Responses per Respondent: 1.

Average Burden per Response: .31.

Frequency: Annually.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The goals of this survey effort are to assess TRICARE Network Provider satisfaction, attitudes and perceptions regarding the services provided by civilian Health Care Support and Service Contractors (HCSS) and TRICARE. The survey focuses on basic business functions provided by the HCSS Contractors such as inquiries,

provider communications, claims processing, appeals, provider enrollment, medical review and provider audit and reimbursement. The survey will be conducted yearly and annual reports of the results will be available via an online reporting system for use by TMA (HPA&E). The survey will be based on the Medicare Contractor Provider Satisfaction Survey (MCPSS) core instrument that may include additional DoD specific questions. The MCPSS provides a standardized instrument for measuring providers' perspectives on satisfaction with their Medicare Contractors as well as providing the capability to make statistically valid comparisons of results to national and system-wide statistical findings.

Title and OMB Control Number: Application for Department of Defense Common Access Card—DEERS Enrollment, DD Form 1172-2, OMB Number 0704-0415.

Needs and Uses: This information collection requirement is needed to obtain the necessary data to establish a record in the Defense Enrollment Eligibility Reporting System (DEERS) for individuals not pre-enrolled in the DEERS, and to maintain a centralized database of individuals eligible for a DoD identification card. This information is used to establish eligibility for the DoD Common Access Card (CAC) for individuals that are either employed by or associated with the Department of Defense. The information also provides a source of data for demographic reports.

Affected Public: Individuals or households.

Annual Burden Hours: 300,000.

Number of Respondents: 500,000.

Responses per Respondent: 1.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

Summary of Information Collected: The DD Form 1172-2, Application for Department of Defense Common Access Card—DEERS Enrollment, the form associated with this information collection, is used to collect relevant

data (e.g., name, identifying information, employment status, citizenship) from the respondent. The data collected establish eligibility for the appropriate DoD Common Access Card for those individuals not pre-enrolled in the Defense Enrollment Eligibility Reporting System (DEERS).

The Homeland Security Presidential Directive—12 (HSPD-12), dated August 27, 2004, directed the promulgation of a Federal standard for secure and reliable forms of identification for Federal Employees and contractors that will be interoperable among the Federal departments and agencies. The Department of Defense is in the process of adjusting the Common Access Card (CAC) program so that it meets the requirements of HSPD-12.

HSPD-12 mandates smart card technology and supports the use of Public Key Infrastructure (PKI) to make access control decisions for both logical access to computer systems and physical access to federal facilities. PKI is a key and certificate management infrastructure designed to support confidentiality, integrity, availability, authorization, and access control for both computer networks and physical access. Public Law 106-65, Section 373, codified at 10 United States Code annotated, "other provisions," directs the Department to develop and implement a Smart Card program. The Deputy Secretary of Defense memorandum, dated November 10, 1999, "Smart Card Adoption and Implementation," directs the implementation of smart card technology as a Department-wide Common Access Card (CAC) that shall be: The standard ID card for active duty military personnel (to include the Selected Reserve); DoD civilian employees, eligible contractor personnel and other eligible personnel; the principal card used to enable physical access to buildings and controlled spaces; and will be used to gain access to the Department's computer networks and systems. The Deputy Secretary directs the CAC shall be issued and maintained using the infrastructure provided by the Defense Enrollment Eligibility Reporting System and the Real-time Automated Personnel Identification System (RAPIDS).

Individuals included in this information collection are eligible contractor employees, eligible, foreign national personnel and other eligible individuals outside of the DoD. Personnel included in this information collection are considered to be eligible for a CAC if they require logical access to DoD computer systems, are eligible for DoD benefits and entitlements,
