

in diameter from Echo Springs, Wyoming, to Conway, Kansas. The Southern Energy Corridor Alternative reflects the Green River Resource Management Plan's preferred locations for future proposed ROWS. Other alternatives, including transportation system alternatives and route variations, were considered, but not studied in detail.

As part of the proposed action, the Overland Pass Pipeline would be routed across southern Wyoming from Opal to Echo Springs along various existing utility or pipeline ROWs. From Echo Springs, the pipeline ROW would run in a southeasterly direction, paralleling the existing Southern Star Pipeline, and proceed to the south of Cheyenne, Wyoming, before entering Colorado. A major portion of the proposed route in Wyoming would cross public lands administered by the BLM.

From the Colorado border, the pipeline ROW would continue to parallel the Southern Star Pipeline southeasterly crossing the Pawnee National Grassland, which is administered by the USDA Forest Service, and then into Kansas. From the Colorado-Kansas state line, the Overland Pass Pipeline would continue to run parallel to the Southern Star Pipeline to south of WaKeeney, Kansas. It would then follow an existing BP Amoco pipeline to Bushton, Kansas. From this point, the Overland Pass Pipeline would not parallel existing pipelines until reaching Mitchell, Kansas, where it would then follow an existing Williams Pipeline to the termination point at Conway, Kansas.

At Bushton and Conway, Kansas, the transported NGL would be processed at existing facilities and distributed through an existing transportation infrastructure to consumer markets in the Midwest and Texas' Gulf of Mexico coast. About 82 percent of the proposed 760-mile pipeline would be co-located within existing pipeline ROW corridors. In addition to the pipeline, three electric pump stations (two immediate and one future construction) would be needed to move the NGL at a maximum pressure of 1,440 pounds per square inch gauge through the pipeline. The pump stations are proposed to be located near Echo Springs and Laramie, Wyoming, and near WaKeeney, Kansas. The pipeline would have manual or self-actuating shut-off valves at regular intervals, as well as cleaning facilities and meter stations.

The Overland Pass Pipeline would be constructed and installed within a 75 foot-wide construction area. After construction and reclamation, the permanent ROW would be 50-feet wide,

centered on the pipeline. All temporary workspace areas needed for construction activities outside the 50-foot-wide permanent ROW would require Temporary Use Permits.

All comment submittals must include the commenter's name and street address. Comments, including the names and street addresses of respondent, will be available for public review at the Rawlins Field Office during its business hours (8 a.m. to 4:30 p.m.), Monday through Friday, except for Federal holidays. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment, including your personal identifying information may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[NV-050-5853-ES; N-82826; 7-08807]

#### Notice of Realty Action; Recreation and Public Purposes Act Classification of Public Lands in Clark County, NV

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Realty Action.

**SUMMARY:** The Bureau of Land Management (BLM) has examined and found suitable for classification for lease or subsequent conveyance under the provisions of the Recreation and Public Purposes (R&PP) Act, as amended, approximately 160 acres of public land in Clark County, Nevada. The City of Henderson proposes to use the land for recreational, civic, and municipal facilities.

**DATES:** Interested parties may submit written comments regarding the proposed lease/conveyance or classification of the lands until October 9, 2007.

**ADDRESSES:** Send written comments to the Field Manager, BLM Las Vegas Field Office, 4701 N. Torrey Pines Drive, Las Vegas, NV 89130.

**FOR FURTHER INFORMATION CONTACT:** Cheryl Cote, 702-515-5104.

**SUPPLEMENTARY INFORMATION:** The following described public land in Clark

County, Nevada, has been examined and found suitable for classification for lease and subsequent conveyance under the provisions of the R&PP Act, as amended (43 U.S.C. 869 *et seq.*), and is hereby classified accordingly:

#### Mount Diablo Meridian, Nevada

T. 22 S., R. 63 E.

Sec. 16, SW<sup>1</sup>/<sub>4</sub>.

The area described contains 160 acres, more or less, in Clark County.

In accordance with the R&PP Act, the City of Henderson filed an application for the above-described 160 acres of public land to be developed for recreational, civic, and municipal facilities. Recreational facilities will include a community park, programmable sports fields, an aquatics center, tennis courts, interpretive areas, and biking, running and hiking trails. The trail systems to be developed will connect to the city-wide trail system and ultimately, to the Clark County trail system. The plan also includes a multi-purpose senior center and municipal facilities. Additional detailed information pertaining to this application, plan of development, and site plans is in case file N-82826 located at the BLM Las Vegas Field Office, 4701 N. Torrey Pines Drive, Las Vegas, Nevada.

The land is not needed for any Federal purpose. The lease/conveyance is consistent with the Las Vegas Resource Management Plan dated October 5, 1998, and would be in the public interest. The lease/conveyance, when issued, will be subject to the provisions of the R&PP Act and applicable regulations of the Secretary of the Interior, and will contain the following reservations to the United States:

1. A right-of-way for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945); and

2. All minerals together with the right to prospect for, mine and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

The lease/conveyance will be subject to all valid existing rights documented on the official public land records at the time of lease/patent issuance.

On August 24, 2007, the land described will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease/conveyance under the R&PP Act, leasing under the mineral leasing laws, and disposal under the mineral material disposal laws.

Interested parties may submit comments involving the suitability of the land for recreational, civic, and municipal facilities. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with State and Federal programs.

Interested parties may submit comments regarding the specific use(s) proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision to lease/convey under the R&PP Act, or any other factor not directly related to the suitability of the land for R&PP use.

Facsimiles, telephone calls, and electronic mail are unacceptable means of notification. Comments, including names and addresses of respondents, will be available for public review. Before including your address, telephone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Any adverse comments will be reviewed by the BLM Nevada State Director. In the absence of any adverse comments, the classification of the land described in this notice will become effective October 23, 2007. The lands will not be offered for lease/conveyance until after the classification becomes effective.

**Authority:** 43 CFR part 2740.

Dated: August 6, 2007.

### Bureau of Land Management

[UT-060-1610-016J]

#### Notice of Availability of the Draft Resource Management Plan and Draft Environmental Impact Statement for the Moab Field Office in Grand and San Juan Counties, UT

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Availability.

**SUMMARY:** In accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), and the Federal Land Policy and Management Act of 1976 (FLPMA, 43 U.S.C. 1701 *et seq.*), the Bureau of Land Management (BLM) hereby gives notice that the Moab Draft Resource Management Plan and Draft Environmental Impact Statement (DRMP/DEIS) is available for a 90-day public review and comment period. This notice also meets requirements in 43 CFR 1610.7-2(b) concerning potential Areas of Critical Environmental Concern (ACECs).

**DATES:** To ensure that your written comments on the DRMP/DEIS will be considered, you should send them to the BLM within 90 days following the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The BLM will announce public meetings and other public-involvement activities at least 15 days in advance through public notices, news releases, direct mailings, and posting on the project Web site at <http://www.blm.gov/ut/st/en/prog/planning.1.html>. Public meetings will be held in Moab, Monticello, and Salt Lake City, Utah, and in other locations, if warranted.

**ADDRESSES:** Address written comments to: RMP Comments, Moab Field Office, Bureau of Land Management, 82 East Dogwood, Moab, UT 84532. Comments may also be submitted electronically by e-mail to:

[UT\\_Moab\\_Comments@blm.gov](mailto:UT_Moab_Comments@blm.gov).

Comments, including names and addresses of respondents, will be available for public review at the Moab Field Office, and will be subject to disclosure under the Freedom of Information Act (FOIA). Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to

withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

**FOR FURTHER INFORMATION CONTACT:** For further information, or to have your name added to the Moab RMP mailing list, visit the RMP Web site: <http://www.blm.gov/ut/st/en/prog/planning.1.html>. Or, you may contact Brent Northrup, RMP Project Manager, Moab BLM Field Office, 82 East Dogwood, Moab, UT 84532, phone (435) 259-2100. To have your name added to the Moab RMP mailing list, or to view and download the DRMP/DEIS in portable document format (PDF) go to the project Web site: <http://www.blm.gov/ut/st/en/prog/planning.1.html>. Copies of the DRMP/DEIS are also available at the BLM Moab Field Office.

**SUPPLEMENTARY INFORMATION:** The DRMP/DEIS addresses public lands and resources managed by the Moab Field Office in Grand and San Juan Counties, Utah. These lands and resources are currently managed under the Grand Resource Area RMP (1985). The planning area includes approximately 1.8 million acres of BLM-administered public lands as well as Federally-owned minerals.

The BLM analyzes four proposed alternatives in the DRMP/DEIS:

- **Alternative A (No Action):** represents continuation of existing management under the current management goals, objectives, and direction specified in the Grand Resource Area RMP.
- **Alternative B:** Emphasizes protection of natural resource values and landscapes.
- **Alternative C (BLM Preferred Alternative):** emphasizes a balance of resource protection with commodity production.
- **Alternative D:** emphasizes commodity production.

Major issues that were identified during public scoping and considered in the DRMP/DEIS include: oil and gas development; recreation and off-highway vehicle management; special designations (ACECs and suitability of rivers for Congressional designation into the national Wild and Scenic Rivers System); land areas with wilderness characteristics; and transportation and access. The DRMP/DEIS considers the designation and protection of ACECs.
